*Writing Philosophy Papers* Zachary Seech, Andrew Kania, 2024-08-28

This sixth edition of *Writing Philosophy Papers* updates and expands one of the most popular guides to philosophical writing assignments for undergraduate students. Written in a clear straightforward style, the book covers everything from time management to the difference between *i.e.* and *e.g.* The heart of the book is devoted to how to write a thesis defense paper, with chapters on the structure of a strong paper, the process of writing and revising, matters of style and usage, and scholarly citation. This advice is illustrated with concrete examples throughout, including a complete thesis defense paper written and formatted according to the book's recommendations. The book also covers how to take good notes from various kinds of philosophical sources, how to write other commonly assigned kinds of papers, and how to study for and take a philosophy exam. A chapter on doing philosophical research contains practical advice on how to discover and access the most helpful sources for a philosophical research paper or annotated bibliography. Because virtually every philosophy assignment requires a basic grasp of arguments, the book ends with a chapter introducing some basic concepts and skills for reasoning well. The heart of the sixth edition has been revised and restructured to lead students even more clearly through the process of drafting, revising, and formatting a thesis defense paper. This new edition also includes an updated, completely revised and expanded chapter on citing sources, giving equal consideration to print and online sources; an updated, completely revised and expanded chapter on doing philosophical research, focused on how to find the most helpful sources for completing a philosophical research paper or annotated bibliography; updated, revised, and greatly expanded advice on writing style and usage; a completely revised and expanded treatment of good reasoning, with a new discussion of inductive and abductive reasoning; and new advice on how to take good notes and how to study for and take philosophy exams.

**Write Here: Developing Writing Skills in a Media-Driven World** Randi Brummett de Leon, Brooke Hughes, 2020-04-30 *Write Here* is designed to teach students essential reading and writing skills using media examples to help explain academic concepts and provide opportunities for practice. It is adaptable because it covers the basics of reading, writing, and the modes of writing; it is appropriate to use in developmental composition classrooms. However, it also covers such topics as logical fallacies, rhetoric, timed writing, academic writing, source integration, and MLA/APA documentation, making it appropriate for a first-year or stretch composition course. Many beginning writing students are underprepared and feel that writing just isn't for them. The authors hope to dispel that myth by using media examples and a conversational tone to introduce and teach the material. *Write Here* provides examples that are interesting to students while allowing them to connect to the subject matter on a more personal level. Additionally, the process of analyzing the media helps students sharpen their reading, writing, and critical thinking skills.
