Reinforcement The Simple Machines Answers:

Machine Learning V.K. Jain, Machine Learning employs techniques and theories drawn from many fields within the broad areas of mathematics statistics information science and computer science in particular from the sud domains of machine learning classification cluster analysis data mining database and visualization Machine learning is perhaps the hottest thing in Silicon Valley right now especially deep learning We have Google s class on Tensor Flow which teaches you everything you need to know to work in Silicon Valley s top companies The reason why it is so hot is because it can take over many repetitive mindless tasks It ll make doctor better doctors and lawyers better lawyers and it makes cars drive themselves For example when you re booking a taxi you re shown how much the trip would cost Or when you re on the trip you re shown the path the taxi would take to reach your destination While booking a ride on Uber you re always told the amount of time the trip would take and how much it would cost All of that is Machine Learning The overall goal of this book Machine Learning is to provide a broad understanding of various faces of Machine Learning environment in an integrated manner It covers the syllabi of all technical universities in India and aboard The first edition of this book is also been awarded by AICTE and placed in AICTE s latest Model Curriculum in Engineering Technology as well as Emerging Technology **Audio-visual Teaching Machines** Loyd G.
