Reise Know How Landkarte Kreta 140 000:

Petermann's Maps Jan Smits, 2021-12-20 Petermann's Maps focuses on the maps published in the famous German journal Petermanns Geographische Mitteilungen. This journal, which still exists today, greatly influenced the development of scientific geography and cartography in Germany in the nineteenth century. Numerous articles have been published by recognized experts in this field along with a multitude of illustrations showing maps, prints, and photographs. The journal developed into an important publication setting the standard in the history of the great expeditions and discoveries and European colonial matters. Petermann's Maps contains a bibliography of over 3400 maps, the complete series of maps published in Petermanns Geographische Mitteilungen between the year of its foundation 1855 to the end of the Second World War. Besides the bibliography, 160 of the most attractive geographical and thematic coloured maps are included in Petermann's Maps. These maps can also be viewed on the CD-ROM accompanying the book. An extensive introduction precedes the cartobibliography, properly placing Petermanns Geographische Mitteilungen in its historical context. The introduction describes the history of geography from the eighteenth century onwards, outlining the development of the study of the science of cartography in Germany. The major role of the founder of the journal, Augustus Petermann (1822-1878), and the publishing house Justus Perthes in Gotha played in these developments is discussed at length.
