

A woman with long dark hair, wearing a leopard print coat, is shown in a close-up, looking slightly to the right. The background is a blurred city street at night, with a large building and bare tree branches visible. The overall tone is warm and cinematic.

Relative Strangers English Edition:

Relative Strangers Frank Cicero, 2011-06-28 An Italian American investigates his family's mixed religious roots in northern Italy and Sicily in this fascinating memoir. Italian Protestants: Few people seem to have heard of them but the author's mother's immigrant Italian family was Protestant while his father's were Catholic immigrants from Sicily. On his father's side with dozens of aunts, uncles, and numerous cousins, Catholic family gatherings were loud, often profane, with drinking, smoking, and raucous celebrations of weddings, births, holidays, and other occasions, as well as the mystical rituals inherent in the Catholic faith. By contrast, on his mother's side, family gatherings were small and quiet, with no smoking or drinking, and religion was the core of most family celebrations. But the author had little understanding of the ancient origins of his maternal grandparents' very different Protestant faith, which marked the keen differences between the two sides of the family. *Relative Strangers* describes the author's search for the religious roots of his parents' families in northern Italy and Sicily. He traces the history of the Waldensians, the Protestant sect which began in Lyon, France, in the twelfth century, often suffering persecution but surviving to this day both in Europe and America.

Professional School Counseling Rosemary Thompson, Dr. Rosemary Thompson, 2012-04-27 Today's children and adolescents are constantly facing new and unique challenges, and school counselors must respond to this by expanding their role and function within the schools. This revised and expanded edition of Thompson's important text explores these issues as well as the necessary steps school counselors need to take in order to adapt and effectively deal with them. Thompson advocates for the need for standards-based school counseling, outlining the framework and benefits of the ASCA National Model and comprehensive guidance and counseling programs. She addresses the newest research in implementing evidence-based practices, the mental health issues that may be faced by children and adolescents, consulting with teachers, parents, administrators, and the community, and crisis intervention and management. New to this edition are chapters that focus on minority and disenfranchised students and emphasize the need for school counselors to be able to advocate, coordinate, and collaborate on services for these students and their families. This is an essential resource for every school counselor in a time when the profession is becoming increasingly important.

Affinities Jennifer Mason, 2018-03-16

How is it possible to feel an affinity with a place What is happening when someone feels almost literally transported to another time by a smell or a texture or a song Why do striking family resemblances sometimes feel uncanny In each of these cases a potent connection is being made involving forces flows energies and atmospherics that conventional sociological approaches can find hard to grasp but that are important nonetheless In this innovative book Jennifer Mason argues that these are affinities potent charges and charismatically lively connections in personal life that rise up and matter in some way and that enchant or toxify the everyday She suggests that exploring affinities opens up new possibilities for conceptualizing the experience of living in the world through what she calls the socio atmospherics of everyday life This book invites the reader to embrace possibilities and themes that may seem outside the usual range and to engage in a more open attentive inventive and poetic sociological sensibility

The Transformative Materiality of Meaning-Making David Parkin, 2021-08-18 This book explores verbal and non verbal communication from a social anthropological viewpoint drawing on ethnographic data from fieldwork in East Africa It gives an overview of developments since the 1960s in the anthropology of language use and how these have influenced the author s thinking The volume makes the argument that language and other forms of communication involve semiotic transactions between interlocutors that such communicative exchanges do more than convey information and that they give identity to the recipients of such transactions who reciprocate by defining speakers The density and situational totality of such semiotic exchange can moreover be regarded as a kind of materiality both in terms of their impact on social interaction and in how interlocutors interact bodily as well as verbally among themselves
