Dismantling Contemporary Deficit Thinking Richard R. Valencia, 2010-09-13 Deficit thinking is a pseudoscience founded on racial and class bias. It blames the victim for school failure instead of examining how schools are structured to prevent poor students and students of color from learning. *Dismantling Contemporary Deficit Thinking* provides comprehensive critiques and anti-deficit thinking alternatives to this oppressive theory by framing the linkages between prevailing theoretical perspectives and contemporary practices within the complex historical development of deficit thinking. *Dismantling Contemporary Deficit Thinking* examines the ongoing social construction of deficit thinking in three aspects of current discourse: the genetic pathology model, the culture of poverty model, and the at-risk model, in which poor students, students of color, and their families are pathologized and marginalized. Richard R. Valencia challenges these three contemporary components of the deficit thinking theory by providing incisive critiques and discussing competing explanations for the pervasive school failure of many students in the nation's public schools. Valencia also discusses a number of proactive anti-deficit thinking suggestions from the fields of teacher education, educational leadership, and educational ethnography that are intended to provide a more equitable and democratic schooling for all students. **Ethics in**

Right now there is a movement in churches and nonprofits arguing that charity is toxic, that helping hurts, and that the entire nonprofit sector needs to be reformed to truly lift people out of poverty. These charity skeptics are telling Christians that traditional charity deepens dependency, fosters a sense of entitlement, and erodes the work ethic of people who receive it. Charity skepticism is increasingly popular, and it is almost certainly wrong. *Radical Charity* weaves together research and scholarship on topics as diverse as biblical scholarship, Christian history, economics, and behavioral psychology to tell a different story. In this story, charity is the heart of Christianity and one of the most effective ways that we can help people who are living in poverty. Charity giving to people experiencing poverty without any expectation of return or reformation can save the world and help make God's vision for the church a reality. *The Failure of the Neo-Liberal Approach to Poverty* Brian Caterino, 2022-09-06
