web now we have the following two propositions 1 that the work done by a force is equal to the change in kinetic energy of

the particle but 2 mathematically for a conservative force the work done is minus the change in a function u which we call the potential energy

work and energy p101 bowling green state university - Jan 31 2023

web goals 1 measure and verify aspects of the work energy theorem 2 make appropriate measurements and calculate the kinetic and gravitational potential energies of an object 3 use the work energy theorem to find the work due to friction and the magnitude of the friction force on the glider procedure

work and energy introduction principle of work and energy - Aug 26 2022

web principle of work and energy the work energy principle says states that the change in kinetic energy of a body is equivalent to the net work done on the body this information is referred to as the work energy principle and is derivable from the law conservation of energy here $k_e f$ is the final kinetic energy and $k_e i$ is the initial
