

# English Research Paper: Overview

## Objective One

**Distributed: Wednesday, February 2, 2011**

**Due: Friday, February 4, 2011**

The English Research Paper is the culminating project and assessment of all the writing, reading, and research techniques you have accumulated throughout the course of the year. This vital and pivotal piece of the curriculum affords an opportunity to demonstrate the ability to read, write, speak, apply knowledge, problem solve, and use a myriad of life skills such as time management, organization, and risk-taking and will occur from March until May. The two (2) components of the project are as follows:

### **Research Paper**

The student will self-select and research a topic in which he/she has an interest. The culmination of the research work is a 1250 word (4-5 text pages) research paper organized around a clearly stated thesis and adhering to standard documentation forms (MLA Handbook) and standard manuscript guidelines. Submitted in the fourth marking period, the research paper and standard manuscript grades will appear in the student's fourth marking period Assessment category of grades. The paper will count for 200 points in the Assessment category. **The paper is due on Friday, April 15, 2011 and must be posted on turnitin.com.**

### **Oral Presentation and Defense**

The student will present his/her project to the class. This is not a reading of the paper but a dynamic presentation of the work using visual aids, constructed models, videos, or any other approved media. The student must interact with the class and teacher during the presentation. The Oral Presentation will take place during the fourth marking period and will be reflected in the fourth marking period Assessment categories of grades. The speech will count for 200 points in the Assessment category. **The presentations will take place from May 17-20, 2011.**

### **Note**

In order for this process to be a successful learning experience, this Objectives Packet enables the student to approach this project in a measured way, with each component having a separate due date. Language, research, speaking, and writing assignments given to students during the course of the semester afford opportunities to practice and to perfect further the skills necessary to successfully meet the objectives required to successfully complete the research paper. Students and parents should note that students and their families can locate information, extra copies, and models for all of the needed research requirements on our class website.

Although we will have many opportunities to visit the library in school and to work on writing during class, students are expected to work independently at home and during study halls, if needed. Please also consider that academic programs will still be occurring; therefore, students should manage their time wisely in order to prepare for quizzes, exams, and other academic responsibilities that may be unrelated to the research project.

**First Time Up** Brock Dethier, 2008-09-30 First time up an insider s friendly question from 1960s counter culture perfectly captures the spirit of this book A short supportive practical guide for the first time college composition instructor the book is upbeat wise but friendly casual but knowledgeable like the voice that may have introduced you to certain other firsts With an experiential focus rather than a theoretical one First Time Up will be a strong addition to the newcomer s professional library and a great candidate for the TA practicum reading list Dethier author of The Composition Instructor s Survival Guide and From Dylan to Donne directly addresses the common headaches nightmares and epiphanies of composition teaching especially the ones that face the new teacher And since legions of new college composition teachers are either graduate instructors TAs or adjuncts without a formal background in composition studies he assumes these folks as his primary audience Dethier s voice is casual but it conveys concern humor experience and reassurance to the first timer He addresses all major areas that graduate instructors or new adjuncts in a writing program are sure to face from career anxiety to thoughts on grading and keeping good classroom records Dethier s own eclecticism is well represented here but he reviews with considerable deftness the value of contemporary scholarship to first time writing
