Cutler,2015-05-01 Who holds ultimate authority for the education of America s children teachers or parents Although the relationship between home and school has changed dramatically over the decades William Cutler s fascinating history argues that it has always been a political one and his book uncovers for the first time how and why the balance of power has shifted over time Starting with parental dominance in the mid nineteenth century Cutler chronicles how schools growing bureaucratization and professionalization allowed educators to gain increasing control over the schooling and lives of the children they taught Central to his story is the role of parent teacher associations which helped transform an adversarial relationship into a

collaborative one Yet parents have also been controlled by educators through PTAs leading to the perception that they are company unions Cutler shows how in the 1920s and 1930s schools expanded their responsibility for children s well being outside the classroom These efforts sowed the seeds for later conflict as schools came to be held accountable for solving society s problems Finally he brings the reader into recent decades in which a breakdown of trust racial tension and parents rights have taken the story full circle with parents and schools once again at odds Cutler s book is an invaluable guide to understanding how parent teacher cooperation which is essential for our children s educational success might be achieved

*Growing Up Suburban* Edward A. Wynne,2014-09-10 The prosperous comfortable and homogeneous American suburb is a relatively recent institution in American history Edward Wynne was one of the first to take a serious look at the quality of suburban childhood where he contends we have ignored the developments affecting the largest pool of children and parents in America This provocative volume argues that the total environment of the suburban youth the school the community the family and the workplace is in need of drastic reform Wynne advances a forthright argument for the preservation of traditional moral values and criticizes excessive individualism in fragmented modern society Focusing on the schools and extending his discussion to the larger community he pleads for more attention to such goals as honesty persistence patriotism and loyalty Post industrial suburban environments Wynne argues do not provide the diversity of experience children must have to become successful adults Strong community ties to the schools are basic to Wynne s thesis Within the schools he recommends changes in grading systems student responsibilities and assignments selection and training of

teachers and administrators structuring and evaluation of programs and the socioeconomic and age mix of pupils A feeling of cooperation and unity within the school itself is a major goal Wynne also suggests steps for moving toward more heterogeneous close knit communities where citizens have greater local control For example community members could restrict movement into the community and should aim for a mix of blue and white collar residents Wynne s arguments clearly run counter to fashion and are sure to provoke a high level of debate among educators of differing philosophic persuasions Civil libertarians feminists civil rights advocates and others are bound to make spirited replies to many of Wynne s contentions Growing Up Suburban will be of interest to educators public school administrators parents and suburban dwellers

*Picturing the (Un)Dead in Beirut* Agnes Rameder,2024-12-14 Martyr posters are more than obituary images they can act as visual politics Focusing on Rabih Mrou s play How Nancy Wished That Everything Was an April Fool s Joke 2007 Agnes Rameder analyses how contemporary artists question and appropriate Lebanese martyr posters By linking the posters from the Wars in Lebanon 1975 1990 to contemporary posters she shows that these images continue to the present day that

martyrs are still created and that deaths such as those who were killed in the explosion on 4 August 2020 are still visually remembered This study does not focus on how such pictures are perceived by a Western audience but delves into the use and abuse of martyr posters that were intended to be shown to the Lebanese *United States Economist, and Dry Goods Reporter*, 1918 **The Merola's** Alice J. Adessio, 2012-06-07 This book THE MEROLA S is the story of my ancestors including both my maternal and paternal grandparents and their voyage to America on the same ship It provides current and future generations of our family with both the Petrizzi and the Merola Family Trees It also gives a little information about the Adessio family It covers seven generations of my family contains little snippets of their life and many photographs and documents of the families through the ages It includes an illustration of the S S Neustria on which they traveled from Italy to America highlighting part of the ship s manifest The book contains photographs from Italy and the United States over a period of nearly one hundred twenty five years from 1890 to 2012 My maternal grandfather and his two cousins arrived in America in 1886 They found the streets were not paved in gold but they could earn a good living and support a family here After two years they returned to Italy to find wives and came back to America in 1890 with their new brides This book is their story I had for many years wanted to create a family tree for the young people in the family many of whom live out of state those who as you spoke to them usually said Who are you speaking about Are they related and if so how are they related I created an extensive Family Tree I went back seven generations beginning in Italy and culmination in the United States I decided that I wanted to tell the young people a little bit about their ancestors so I included mini biographies of my grandparents aunts and uncles and some of my cousins who are no longer with us I also included some short stories about them At this point I decided the younger members of the family now knew where they fitted in the family and a little bit about their relative s lives but they couldn t visualize what these people looked like so I included photographs of these ancestors I was able to collaborate with two of my cousins I wrote the bios of the relatives and e mailed them to these cousins and my sister for their clarification of what I had written I had copies of documents and many photos of the family which I included I then called my sister making her crazy saying Momma had a photograph of so and so and it looked like this see if you can find it and mail it to me She always did The information in this book was not obtained using Ancestry com which is not the most reliable source rather the stories and facts were handed down to us by our aunts and uncles over the years and as we recalled some of our experiences growing up It depicts the life of a family of Italian immigrants their pursuit of citizenship the hardships and the challenges they faced In reading the book you can see how times and concepts change as well as the struggles of our ancestors and how they handled adversity and dealt with any obstacles they encountered It shows how with perseverance and determination they prospered and became valued citizens These people my relatives became doctors lawyers a District Attorney clothing designers pharmacists CPAs and a U N Representative to name a few There were also many teachers bookkeepers business owners and managers builders architects photo engravers and engineers It took me

about two years to complete this project and deal with a publisher but I finally achieved my goal I had my book published purchased the quantity I required and upon receiving the copies sent them to all of my relatives and gave a few copies to close friends It truly was a labor of love It was very gratifying to receive notes letters phone calls and e mails from my cousin
