Advances in food processing continue to take place as food scientists and food engineers adapt to the challenges imposed by emerging pathogens, environmental concerns, shelf life, quality and safety, as well as the dietary needs and demands of humans. In addition to covering food processing principles that have long been essential to food quality and safety, this edition of *Food Processing Principles and Applications* unlike the former edition covers microbial enzyme inactivation kinetics, alternative food processing technologies, as well as environmental and sustainability issues currently facing the food processing industry. The organisation has had a tremendous impact upon the lives of tens of thousands of Australians over our 75-year history. Since 1982, it has enhanced the lives of young women as well as men. The book begins in WWII with the need to pre-train capable and committed keen lads. Over 30,000 Australian boys were air cadets, 1941-1945, with almost 13,000 going on to active service in the war. Air Force cadets survived into peacetime to become an aviation focussed youth development organisation providing flying training in a military atmosphere with the aim of inspiring cadets to join the RAAF. There are currently over 8,000 Air Force cadets and adult staff around Australia. Aviation centred youth development in a RAAF service environment remains our central focus. *Maize* Sukhvinder Singh Purewal, Pinderpal Kaur, Sneha Punia Bangar, Kawaljit Singh Sandhu, Surender Kumar Singh, Maninder Kaur, 2022-09-30 *Maize* is widely cultivated throughout the world due to its high yield potential.
