Archaeology of North Pacific Fisheries Madonna L. Moss, Aubrey Cannon, 2011-11-15 For thousands of years fisheries were crucial to the sustenance of the First Peoples of the Pacific Coast Yet human impact has left us with a woefully incomplete understanding of their histories prior to the industrial era Covering Alaska British Columbia and Puget Sound The Archaeology of North Pacific Fisheries illustrates how the archaeological record reveals new information about ancient ways of life and the histories of key species Individual chapters cover salmon as well as a number of lesser known species

abundant in archaeological sites including pacific cod herring rockfish eulachon and hake In turn this ecological history informs suggestions for sustainable fishing in today s rapidly changing environment
