Musicality in Theatre David Roesner, 2016-04-29 As the complicated relationship between music and theatre has evolved and changed in the modern and postmodern periods music has continued to be immensely influential in key developments of theatrical practices In this study of musicality in the theatre David Roesner offers a revised view of the nature of the relationship The new perspective results from two shifts in focus on the one hand Roesner concentrates in particular on theatre making that is the creation processes of theatre and on the other he traces a notion of musicality in the historical and contemporary discourses as driver of theatrical innovation and aesthetic dispositif focusing on musical qualities metaphors and principles derived from a wide range of genres Roesner looks in particular at the ways in which those who attempted to experiment with advance or even revolutionize theatre often sought to use and integrate a sense of musicality in training and directing processes and in performances His study reveals both the continuous changes in the understanding of music as model method and metaphor for the theatre and how different notions of music had a vital impact on theatrical innovation in the past 150 years Musicality thus becomes a complementary concept to theatricality helping to highlight what is germane to an art form as well as to explain its traction in other art forms and areas of life The theoretical scope of the book is developed from a wide range of case studies some of which are re readings of the classics of theatre history Appia Meyerhold Artaud Beckett while others introduce or rediscover less discussed practitioners such as Joe Chaikin Thomas Bernhard Elfriede Jelinek Michael Thalheimer and Karin Beier

Last Operas and Plays Gertrude Stein, 1995-05-22 When I see a thing it is not a play for me but when I write something that somebody else can see then it is a play for me Gertrude Stein In the more than seventy five plays Gertrude Stein wrote between 1913 and 1946 she envisioned a new dramaturgy beginning with her pictorial conception of a play as a landscape She drew into her plays the daily flow of life around her including the natural world and turned cities villages parts of the dramatic structure and even her own friends into characters She made punctuation and typography part of her compositional style and chose words for their joyful impact

as sound and wordplay For Strindberg the writing process itself was always important in developing the continuous present at the heart of her work Long out of print Last Opera and Plays again makes available many of Stein's most important and most produced works As a special feature it also included her thought provoking essay Plays in which she reflects on the experience in the theater of seeing and hearing and on emotion and time Now nearly a half century after her death she writes Bonnie Marranca in her introduction it is indisputable that Gertrude Stein is the great American modernist mind No American author has been more influential for more generations of artists in the worlds of theater dance music poetry painting and fiction
