

under scrutiny all the time, and so they have to be able to maintain the highest standards. This is true not only in the hours of work itself, but also at home: "You must be prepared to conduct your personal life with the same degree of discretion as your professional life." (Baker, p. 2). This makes the job of police officer sound extremely challenging and provides a solemn starting point for an interview with a serving police officer.

The police officer who agreed to the interview is a patrol officer who works both in the office and in a patrol car. He started in law enforcement after working in the housing sector. It was interesting to note that he did not pass the police examination the first time. He persisted until finally he did pass and then he was interviewed and appointed. It is obvious that he spends a lot of his time out on the job, answering calls and dealing with incidents that happen day by day. He spends more time in the despatch office, however, and for this he needs to have good office skills and he has to think fast and deal with complicated scenarios. Perhaps this is why he recommends that a person who wants to become a police officer should study for a degree. These writing and thinking skills are going to be very important in a job like this.

It was important to him also to learn from other officers. So much of the job requires experience. People behave in unpredictable and dangerous ways sometimes, and it is always useful to hear how more experienced officers have coped with things in the past. The officer was very sure that the police academy was essential when it comes to tactical skills, but he thought experience and listening to experiences of others was just as important as the technical skills that are taught in the academy.

When asked what was difficult about the job, the officer mentioned the way that people get out of control. He said that police officers are not able to lose control, and that they have to be fair at all times, and be aware that they are being watched. This was a big

Unconventional Methodology in Organization and Management Research Alan Bryman, David A. Buchanan, 2018-03-02 Most researchers in organization and management studies stick to two or three traditional research methods like surveys and interviews Sticking with the familiar is seen as a safe bet and innovation is discouraged by academic incentives and rewards But research participants are now

suffering from survey fatigue and using the same old methods runs the risk of generating the same old findings This book describes twelve unconventional methodologies in organization and management research These include unconventional research settings and data sources unconventional research designs and data collection methods unconventional analytic approaches and designs and methods that exploit new technology developments The aim is to encourage dialogue and experimentation with regard to the development of innovative unconventional approaches to organization and management research Several commentators have criticized the way in which research methods have become more formulaic and have argued for greater diversity in research approaches The methodological perspective that we adopt shapes our interpretation of the information that we gather Different methods generate different kinds of information leading to different ways of understanding the phenomena that we are investigating Our methods influence our styles of theorizing ways of thinking and reasoning and forms of writing and reporting research This book will be of value to academic researchers in organization and management studies Doctoral candidates and Masters students on MBA and similar programmes
