Pauli spent 30 years as a professor at the Federal Institute of Technology (ETH) in Zurich, which occupies a central place in this biography. It would be incomplete, however, without a rendering of Pauli's sarcastic wit and, most importantly, of the world of his dreams. It is through the latter that quite a different aspect of Pauli's life comes in, namely his association with the psychology of C. G. Jung and his school.    **Resources in Education**, 1990    Research in Education, 1971    Indian National Bibliography, 2016-04
