## **Popular Children Chapter S:**

Popular Children's Literature in Britain Julia Briggs, Dennis Butts, 2016-12-05 The astonishing success of J K Rowling and other contemporary children's authors has demonstrated how passionately children can commit to the books they love. But this kind of devotion is not new. This timely volume takes up the challenge of assessing the complex interplay of forces that have created the popularity of children's books both today and in the past. The essays collected here ask about the meanings and values that have been ascribed to the term popular. They consider whether popularity can be imposed or if it must always emerge from children's preferences. And they investigate how the Harry Potter phenomenon fits into a repeated cycle of success and decline within the publishing industry. Whether examining eighteenth century chapbooks, fairy tales, science schoolbooks, Victorian adventures, waif novels or school stories, these essays show how historical and publishing contexts are vital in determining which books will succeed and which will fail, which bestsellers will endure and which will fade quickly into obscurity. As they consider the fiction of Angela Brazil, Enid Blyton, Roald Dahl and J K Rowling, the contributors carefully analyse how authorial talent and cultural contexts combine in often unpredictable ways to generate and sometimes even sustain literary success.

A Philosophical Commentary on the Politics of Aristotle Peter L. Phillips Simpson, 2000-11-09 The Politics, Aristotle's classic work on the nature of political community, has been a touchstone of Western debates about society and government. In this volume Peter Simpson presents a complete philosophical commentary on the Politics, an analysis of the logical structure of the entire text and each of its constitutive arguments and conclusions. Unlike other contemporary works on the Politics, Simpson's philosophical commentary is not save incidentally a discussion of philological and historical questions, a speculative elaboration of Aristotle's arguments or a comparison of the philosopher's ideas with those of other ancient and modern theorists. Such treatments, argues Simpson, must be grounded in a thorough understanding of the philosophical content of the work, a point that underscores the need for this thorough and accurate analysis. Keyed to the ancient Greek text as well as to Simpson's own innovative translation of it, UNC Press 1997, this book will stand as a valuable commentary on the philosophical argument in the Politics and will serve as a sound basis for future study of Aristotle's political thought.

Children, Film and Literacy Becky Parry, 2013-10-22 Children, Film and Literacy explores the role of film in children's lives. The films children engage in provide them with imaginative spaces in which they create play and perform familiar and unfamiliar fantasy and everyday narratives, and this narrative play is closely connected to identity.

literacy and textual practices Family is key to the encouragement of this social play and at school the playground is also an important site for this activity However in the literacy classroom some children encounter a discontinuity between their experiences of narrative at home and those that are valued in school Through film children develop understandings of the common characteristics of narrative and the particular language of film This book demonstrates the ways in which children are able to express and develop distinct and complex understandings of narrative that is to say where they can draw on their own experiences including those in a moving image form Children whose primary experiences of narrative are moving images face particular challenges when their experiences are not given opportunities for expression in the classroom and this has urgent implications for the teaching of literacy **Resources in Education** ,2000-04 *How to Get Your Child to Love Reading* Esmé Raji Codell,2003-01-01 Offers advice and guidelines on how to expand a child s world through books and reading introducing three thousand teacher recommended book titles craft ideas projects recipes and reading club tips
