Sa Army 2015 2016

Dawn Nagar, Charles Mutasa

Sa Army 2015 2016:

South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Culture and Crisis Communication Amiso M. George, Kwamena Kwansah-Aidoo, 2017-08-09 A collection of case studies from nonwestern countries that offers an analysis of the significant role culture plays in crisis communication. *Culture and Crisis Communication* presents an examination of how politics, culture, religion and other social issues affect crisis communication and management in nonwestern countries. From intense human tragedy to the follies of the rich, the chapters examine how companies, organizations, news outlets, health organizations, technical experts, politicians and local communities communicate in crisis situations. Taking a wider view than a single country's perspective, the text contains a cross-cultural and cross-country approach. In addition, the case studies offer valuable lessons that organizations that wish to operate or are operating in those cultures can adopt in preparing and managing crises. The book highlights recent crisis events such as Syria's civil war, missing Malaysia Flight MH370 and Japan's Fukushima Daiichi nuclear power plant disaster. Each of the case studies examines how culture impacts communication and responses to crises. Authoritative, insightful and instructive, this important resource analyzes how nonwestern cultures respond to crises. Covers the role of culture in crisis communication in recent news events. Includes contributions from 18 international authors who provide insight on nonwestern culture and crisis communication. Written for communication professionals, academics and students. *Culture and Crisis Communication* presents an insightful introduction to the topic of culture and crisis communication and then delves into illustrative case studies that explore intra-cultural and trans-boundary crisis communication.

South Africa and United Nations Peacekeeping Offensive Operations Garcia, Antonio, 2018-08-16 The creation of the Force Intervention Brigade (FIB) as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo (MONUSCO) tasked

with the neutralising of armed groups was a watershed moment in the history of modern peace missions. What was more significant was that sub-Saharan national leaders were instrumental in the creation of the FIB South Africa, Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN. With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub-Saharan Africa and therefore holds a key strategic role in achieving the FIB's objectives. This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts. The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations. In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations. Furthermore there are sections on operational constructs, capstone and operating concepts, doctrine and structural elements as well as a section on mine action. This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges.

Professional Journal of the United States Army, 2016-07 Military Review, 2016 African Standby Force
Francois VreA, 2017-10-28 Standby forces of the African Union are expected to deploy rapidly into high intensity conflict zones. Inherently they stem from and are expected to work effectively with regional militaries of differing capabilities. But first the AU has to muster the political will to deploy the force at all and do it all on a shoestring budget. VreA and Mandrup's edited volume illuminates through the chapter contributions the breadth of challenging political hurdles that the African Union's African Standby Force faces. They do this in clear and readable terms. This important book is imperative for anyone seeking to understand the rapid deployment forces on which African states have optimistically pinned the future of their collective security aspirations. Army Fundamentals Bethan Greener, 2017-05-01 How do we understand the functions of militaries of democratic societies? How good soldiers are made, how they behave when posted overseas, the issue of gender and the increased use of military beyond their core functions all demand a closer academic examination. This edited collection brings together work by exciting new scholars as well as established academics and examines the identity and functions of the New Zealand Army from a range of perspectives. Drawing on anthropology, political studies, international relations, development studies, law and defence and security studies, it provides a multi-faceted view of one military organisation and helps further our understanding of the character and the challenges of military personnel and institutions in the twenty-first century. **The Routledge International Handbook of Military Psychology and Mental Health** Updesh

Kumar, 2019-12-11 Military psychology has become one of the world's fastest growing disciplines with ever-emerging new applications of research and development. The Routledge International Handbook of Military Psychology and Mental Health is a compendium of chapters by internationally renowned scholars in the field bringing forth the state of the art in the theory, practice and future prospects of military psychology. This uniquely interdisciplinary volume deliberates upon the current

issues and applications of military psychology not only within the military organization and the discipline of psychology but also in the larger context of its role of building a better world Split into three parts dedicated to specific themes the first part of the book *Military Psychology The Roots and the Journey* provides an overview of the evolution of the discipline over the years delving into concepts as varied as culture and cognition in the military a perspective on the role of military psychology in future warfare and ethical issues The second part *Soldiering Deployment and Beyond* considers the complexities involved in soldiering in view of the changing nature of warfare generating a focal discourse on various aspects of military leadership soldier resilience and post traumatic growth in the face of extreme situations bravery and character strengths and transitioning to civilian life In the final section *Making a Choice Mental Health Issues and Prospects in the Military* the contributors focus on the challenges and practices involved in maintaining the mental health of the soldier covering issues ranging from stress mental health and well being through to suicide risk and its prevention intervention and management strategies moral injury and post traumatic stress disorder Incorporating enlightening contributions of eminent scholars from around the world the volume is a comprehensive repository of current perspectives and future directions in the domain of military psychology It will prove a valuable resource for mental health practitioners military leaders policy makers and academics and students across a range of disciplines

University Education, Controversy and Democratic Citizenship
Nuraan Davids, Yusef Waghid, 2020-11-16 This book explores the role of the university in upholding democratic values for societal change The chapters advocate for the moral virtue of democratic patriotism the editors and contributors argue that universities as institutions of higher learning can encourage the creation of critical and patriotic citizens The book suggests that non violence tolerance and peaceful co existence ought to manifest through pedagogical university actions on the basis of educators desire to cultivate reflectiveness criticality and deliberative inquiry in and through their academic programmes In a way universities can respond more positively to the violence on our campuses and in society if public and controversial issues were to be addressed through an education for democratic citizenship and human rights
