[The Economics of Defense Industry](#) Thomas-Durell Young,2023-10-17 This book on the economics of defence industry assesses a series of historical and contemporary case studies that consistently demonstrate the need for governments to

recognise and thereafter factor the financial needs of a narrow industrial sector that is capital intensive technologically advanced and that requires a highly skilled labour force Since the end of the cold war Western governments have systematically reduced financial support to their domestic defence industry and have seemingly ignored planning and funding industrial mobilisation In all cases government policy has been to encourage industries to consolidate capacity to become financially viable in a sector that has seen diminished demand The 2022 Russian invasion of Ukraine has caused Western governments to reassess their previous assumptions Efforts to increase industrial capacity have been met with the iron laws of economics whereby businesses need to show return on investments The chapters in this volume posit that efforts to rationalise industrial capacity and innovation to meet short term financial efficiencies inevitably results in limited expensive and long delays in increased production in times of international crisis This book serves as an essential guide for academics researchers and students interested in defence economics industrial economics international relations and industrial policy The chapters in this book were originally published in various issues of Defense Security Analysis

Cyclones in Southern Africa Godwell Nhamo, Kaitano Dube, 2021-07-24 The subject of tropical cyclones in Southern Africa also known as hurricanes or typhoons in other regions of the world has been growing over the past few decades However there is still limited literature on foundational and fundamental topics on the matter To this end this book addresses this gap citing some examples from both historic and recent tropical cyclones The book presents meteorological and climatic aspects of tropical cyclones including reviews on forecasting warning message dissemination and public response aspects of early warning systems with a focus on the Tropical Cyclones Idai and Kenneth Fundamentals in disaster risk reduction DRR are also discussed moving from the provisions of the Hyogo Framework for Action 2005 2015 to the Sendai Framework for Disaster Risk Reduction 2015 2030 Climate change issues are central to the publication as well as the role of information and communication technologies in DRR and management The book also tackles some challenges and opportunities associated with the implementation of regional legal and institutional frameworks on DRR The book comes as part of a series with three volumes The other volumes include *Cyclones in Southern Africa Vol 1 Interfacing the Catastrophic Impact of Cyclone Idai with SDGs in Zimbabwe* and *Cyclones in Southern Africa Vol 3 Implications for the Sustainable Development Goals* To this end this book is suitable as a read for several professionals and disciplines such as tourism and hospitality studies economics sustainable development development studies environmental sciences arts geography life sciences politics planning and public health

Congressional Record , *The Handbook of Social Work and Social Development in Africa* Mel Gray, 2016-10-26 All recent books on international social work mention Africa only briefly and few engage with the broader field of development studies This book focuses solely on the unique African context engaging with issues relating to social work and development more broadly thus enabling a deeper examination and more complex and nuanced picture to emerge Unlike most academic works this book highlights multiple practitioner voices with authors or co authors that have recently

been or are currently practising social workers As an edited book it draws from both academic research as well as lived practice experience supported by strong theoretical positioning and guidance in introductory chapters drawing on African literature wherever possible Looking at case studies from Lesotho Botswana Kenya Zimbabwe Ethiopia Namibia Uganda Nigeria Kenya South Africa Rwanda Zambia and Tanzania and covering established areas of practice such as child protection working with older people working with people with disabilities mental health and mainstream services targeting women as well as emerging areas of developmental social work practice such as humanitarian assistance in post conflict situations work with immigrants and refugees and the training of community based workers this book takes a future oriented perspective that aims to move beyond well worn critiques to envision constructive and sustainable futures for social work and social development in Africa from a critical perspective

South Africa Recent Economic and Political Developments Yearbook - Strategic Information and Developments IBP, Inc.,2018-03-31 2011 Updated Reprint Updated Annually South Africa Recent Economic and Political Developments Yearbook *South Africa Banking & Financial Market Handbook Volume 1 Strategic Information and Important Regulations* IBP, Inc.,2018-04 2011 Updated Reprint Updated Annually South Africa Banking Financial Market Handbook **The Mandela Revolution** Huw Lawford,2022-01-28 On 27 April 1994 South Africa went to the polls and delivered the first black government in the country s history This was the Mandela Revolution This is not the story of how the Rainbow Nation was formed but it tells a story of one part of the revolution a vital part that had to occur to give legitimacy to the new South Africa both at home and abroad It highlights the political necessity that drove a process and the seemingly inevitable failure that it became Not a failure of the process itself but a failure that had to occur to permit acceptability it resulted in the end of South Africa as a hegemony This account focuses on how the military forces supporting the Apartheid regime and those committed to its overthrow came together to form a new national force reflecting the new multi racial multi faith democracy The process appeared unacceptable in some measure to all sides but the political instruction in 1994 was that there was to be the integration of the South African defense Force and the armed wings of the African National Congress and the Pan Africanist Congress to form the South African National defense Force Within this revolution there was a small detachment from the British armed forces that were charged with assisting this transition They were required to oversee and assist a process that had never been done before and often had to operate alone It is a story of highs and lows of sudden death breakdowns and ultimately of hope This is a personal account of three years spent in the middle of this staggering transitional experiment It was Security Sector Reform and Disarmament Demobilisation and Reintegration DDR before such processes were coined by the United Nations and arguably it was considerably more successful than any such venture attempted by the United Nations It is a book that demonstrates how success and failure can occur simultaneously **Congressional Record** United States. Africa's black middle class 2016 CHOICE Outstanding Academic Title The rise of the black middle class is one of the most visible aspects of post apartheid society in South Africa Yet while it has been a major actor in the country's democratic reshaping analysis of its role has been all but lacking Rather the image presented by the media has been of black diamonds consumers of the products of advanced industrial economies and of corrupt tenderpreneurs who use their political connections to obtain contracts This book seeks to complicate that picture with a much needed analysis that recounts its historical development in colonial society prior to 1994 before examining the size shape and structure of the new black middle class in contemporary South Africa and its relation to its counterparts in the Global South Roger Southall is Professor Emeritus in Sociology University of the Witwatersrand Southern Africa South Africa Namibia Botswana Lesotho Zimbabwe and Swaziland Jacana The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces, 1913

The Russian Understanding of War Oscar Jonsson, 2019-11-01 This book analyzes the evolution of Russian military thought and how Russia's current thinking about war is reflected in recent crises While other books describe current Russian practice Oscar Jonsson provides the long view to show how Russian military strategic thinking has developed from the Bolshevik Revolution to the present He closely examines Russian primary sources including security doctrines and the writings and statements of Russian military theorists and political elites What Jonsson reveals is that Russia's conception of the very nature of war is now changing as Russian elites see information warfare and political subversion as the most important ways to conduct contemporary war Since information warfare and political subversion are below the traditional threshold of armed violence this has blurred the boundaries between war and peace Jonsson also finds that Russian leaders have particularly since 2011-12 considered themselves to be at war with the United States and its allies albeit with non violent means This book provides much needed context and analysis to be able to understand recent Russian interventions in Crimea and eastern Ukraine how to deter Russia on the eastern borders of NATO and how the West must also learn to avoid inadvertent escalation
