**5TH SEA POWER FOR AFRICA SYMPOSIUM 2024** Captain (SAN) M. Blaine (ret), Captain (SAN) G. Plint, 2025-06-11 I was honoured to chair the Admirals Panel at the SPAS 2024 Symposium which took place at the CITCC Cape Town South Africa. Marked by a significantly high African Naval presence, SPAS24 discussed contemporary maritime security challenges to foster collaboration between practitioners, policymakers, industry and academia. As reflected in the final outcomes, SPAS24 served as a catalyst for actionable ideas while laying the foundation and synergy for a dynamic SPAS 2025 in Nigeria.

Ambassador Nancy Karigithu, Special Envoy for Kenya's Maritime and Blue Economy. It was an honour to take part in African Sea Power 2024 in Cape Town, South Africa. The event was successful in cementing the participants' individual and collective conviction of the importance of the sea for Africa's survival and prosperity.

Admiral Valentim Alberto Antnio, Angolan Navy Commander. *Guns & Roses: Comparative Civil-Military Relations in the Changing Security Environment* Steven Ratuva, Radomir Compel, Sergio Aguilar, 2019-01-04. This edited volume provides a critical and comparative discussion of the changing synergy between the military and society in the dramatically transforming global security climate, drawing on examples from the Asian Pacific, African, Middle Eastern, European and South American regions. The book is interdisciplinary and covers wide-ranging issues relating to civil-military relations, democratization, regional security, ethnicity, peace building and peace keeping, civilian oversight, internal repression, gender, regime change and civil society. **Capacity Building for Maritime Security** Christian Bueger, Timothy Edmunds, Robert McCabe, 2020-10-09. This book studies recent attempts to restructure maritime security sectors through capacity building. It innovates both theoretically and empirically. It proposes a new framework for understanding maritime capacity building, drawing on work in peacebuilding and security sector reform. The framework is then applied across empirical case studies from the Western Indian Ocean (WIO) region, written by scholars from the Global South. The WIO region is a paradigmatic case to study maritime security and capacity building in action. Countries in the region face the full gamut of maritime security challenges while their indigenous capacities to deal with these are often weak. In consequence, the region functions as an engine of innovation for maritime capacity building more widely. The lessons and best practices from the region have importance consequences for addressing maritime security across the globe. *Navies and Maritime Policies in the South Atlantic* Érico Duarte, Manuel Correia de Barros, 2019-02-12. This edited volume analyzes national security issues with maritime implications and specifically naval projects and postures of main South Atlantic countries: Brazil, Argentina, Nigeria and South Africa. Additionally, it provides comprehensive and multi-level analysis of the interplay among national interests in the processes of demarcation of limits of the continental shelf and contention among Uruguay, Chile, Argentina and the United Kingdom in the Southern Atlantic and the Antarctica. This book will interest scholars, researchers and students in the fields of Latin American politics, regional studies, foreign and defense policy and maritime security. *Library of Congress Subject Headings* Library of Congress, Library of Congress.
