Coast Banker ,1921 **Alumni Directory, 1979** Brown University,1979 **The Emerging Republican Majority**

Kevin P. Phillips,2014-11-23 One of the most important and controversial books in modern American politics The Emerging Republican Majority 1969 explained how Richard Nixon won the White House in 1968 and why the Republicans would go on to dominate presidential politics for the next quarter century Rightly or wrongly the book has widely been seen as a blueprint for how Republicans using the so called Southern Strategy could build a durable winning coalition in presidential elections Certainly Nixon s election marked the end of a New Deal Democratic hegemony and the beginning of a conservative realignment encompassing historically Democratic voters from the South and the Florida to California Sun Belt in the book s enduring coinage In accounting for that shift Kevin Phillips showed how two decades and more of social and political changes had created enormous opportunities for a resurgent conservative Republican Party For this new edition Phillips has written a preface describing his view of the book its reception and how its analysis was borne out in subsequent elections A work whose legacy and influence are still fiercely debated The Emerging Republican Majority is essential reading for anyone interested in American politics or history **The New York Times Index** ,2008 Who's Who Among African Americans
