## Same Sex Marriage Paper:

**Justifying Same-Sex Marriage** Louise Richardson-Self, 2015-05-29 There is massive public interest in same sex marriage a controversial topic that is rarely out of the media This book investigates the extent to which legalizing same sex marriage can contribute to ending the discrimination and social stigma faced by lesbian gay bisexual and transgender men and women LGBT in the Western world This issue breaks down into several further questions can marriage equality be defended without reinforcing the idea that marriage is the most only valuable form of intimate relationship Can marriage equality be defended without further marginalizing non conforming LGBT people What kind of equality should LGBT people strive for What critical agency might they lose when this equality is achieved What institutional legacies should we embrace The book focuses on human rights arguments supporting same sex marriage and questions whether they are likely to both justify legal change and encourage shifts in the sociopolitical reception of LGBT people After critically analyzing various arguments in favor of same sex marriage the author puts forward a justification that allows for marriage equality and does not result in the assimilation of queer identities into heteronormative identity The Political Economy of Same-Sex Marriage Bronwyn Winter, 2020-12-29 Same sex marriage is now legal in twenty nine countries and the subject of continued debate around the world The Political Economy of Same Sex Marriage A Feminist Critique considers this debate from a political economy perspective Rather than engaging directly in the now well rehearsed social movement and academic for and against debates this book focuses on processes of institutionalization of same sex marriage and so called rainbow families within neo liberal capitalist democracies It examines how states and markets appropriate same sex marriage and family to enhance their own political and symbolic capital consolidating power and profit within existing systems of gendered and raced socioeconomic stratification Taking a radical feminist heterodox qualitative and intersectional approach this book investigates the political economy of same sex marriage across three axes same sex marriage as institution same sex marriage and the market and the political economy of the rainbow family The examination of case studies from different countries and regions enables a comparative analysis that foregrounds cultural political and economic path dependencies while at the same time highlighting a number of striking commonalities In all the countries discussed in this book and in most respects same sex marriage has been integrated almost seamlessly into a mainstream malestream political economy of marriage and family and its translation into added market and productive value The Political Economy of Same Sex Marriage A Feminist Critique will be of use to researchers and students alike and indeed to all those who are curious about the mainstreaming of homosexuality within twenty first century capitalist democracies **Policy Papers** U.S. Senate Republican Policy Committee, 2003 Sexual Ethics Patrick D.
