This volume makes a significant contribution to the crisis management literature It also adds to our inchoate understanding of network governance temporary teams and task forces communities of practice alliances and virtual organizations It hints that the distinction between networks and organizations may be somewhat spurious a matter of degree rather than kind Indeed it seems that this distinction may derive more from mental models in which we consistently reify organizations than anything else Finally the volume emphasizes the functional importance of leadership in network governance and puzzles over its provision in the absence of hierarchy As such it adds to the contributions made by Marc Granovetter 1973 John Seeley Brown and Paul Duguid 1991 Bart Nooteboom 2000 Paul J DiMaggio 2001 John Arquilla and David Ronfeldt 2001 Laurence O Toole and Ken Meier 2004 and others as well as Nancy Roberts seminal work on wicked problems and hastily formed teams The result is a product the editor and the contributors can be proud of Overall it is one
