

How to Use This Book

There's no one way to do anything, and writing is no exception. Some people need to do a lot of planning on paper, others write entire drafts in their heads. Some writers compose quickly and fluently, getting their best ideas down; others work on one sentence until they're satisfied with it. Some move on to the next. And writers' needs vary from task to task. For instance, you know what you're going to write about and why, but need to figure out how to do it, rather than just let it come up with a topic. The *Writing Portfolio* is designed to offer you the best possible writing course as a writer, offering guidelines that suit your writing needs. It is organized by five parts:

1. **ACADEMIC LITERATURE:** The chapters in this part will help you know what's expected in the reading and writing you do for academic purposes, and in summarizing and responding to what you read. One chapter even provides tips for developing habits of mind that will help you succeed in college, whatever your goals.
2. **ACADEMIC ASSIGNMENTS:** No matter what you're writing, it will always have some purpose, audience, genre, stance, and medium and design. This part will help you consider each of these elements, as well as the particular kinds of rhetorical situations created by academic assignments.
3. **GENRES:** Use these chapters for help with specific kinds of writing. Even abstract to explanations to evaluations and more. You'll find more detailed guidance for five especially common assignments: literary narratives, textual analysis, reports, and arguments.
4. **FIELDING:** The chapters in this part will help you apply what you're learning in this book to your other general education courses or courses in your major.
5. **PROCESSING:** These chapters offer general advice for all writing situations—from generating ideas and text to drafting, organizing, revising, and rewriting, compiling a portfolio—and more.
6. **STRATEGIES:** Use the advice in this part to develop and organize your writing—in our comparisons, descriptions, dialogue, and other strategies as appropriate.
7. **RESEARCH DOCUMENTATION:** Use this section for advice on how to do research, work with sources, and compose and document research-based texts using MLA and APA styles.
