Department of Printed Books,1946 **Annual List of New and Important Books Added to the Public Library of the City of Boston** Boston Public Library,1901 **The Story-Time of the British Empire** Sadhana Naithani,2010-05-12 In The Story Time of the British Empire author Sadhana Naithani examines folklore collections compiled by British colonial administrators military men missionaries and women in the British colonies of Africa Asia and Australia between 1860 and 1950 Much of this work was accomplished in the context of colonial relations and done by non folklorists yet these oral narratives and poetic expressions of non Europeans were transcribed translated published and discussed internationally Naithani analyzes the role of folklore scholarship in the construction of colonial cultural politics as well as in the conception of international folklore studies Since most folklore scholarship and cultural history focuses

exclusively on specific nations there is little study of cross cultural phenomena about empire and or postcoloniality Naithani argues that connecting cultural histories especially in relation to previously colonized countries is essential to understanding those countries folklore as these folk traditions result from both internal and European influence The author also makes clear the role folklore and its study played in shaping intercultural perceptions that continue to exist in the academic and popular realms today The Story Time of the British Empire is a bold argument for a twenty first century vision of folklore studies that is international in scope and that understands folklore as a transnational entity
