Law and the Formation of Modern Europe Mikael Rask Madsen, Chris Thornhill, 2014-07-10 Presents a series of distinct sociological inquiries into the formation of contemporary European law and society **A Taste for Oppression** Ronan Hervouet, 2021-03-03 Belarus has emerged from communism in a unique manner as an authoritarian regime The author who has lived in Belarus for several years highlights several mechanisms of tyranny beyond the regime's ability to control and repress which should not be underestimated The book immerses the reader in the depths of the Belarusian countryside among the kolkhozes and rural communities at the heart of this authoritarian regime under Alexander Lukashenko and offers vivid descriptions of the everyday life of Belarusians It sheds light on the reasons why part of the population supports Lukashenko and takes a fresh look at the functioning of what has been called the last dictatorship in Europe *International Political Sociology* Tugba Basaran, Didier Bigo, Emmanuel-Pierre Guittet, R. B. J. Walker, 2016-07-22 This book presents an overview and evaluation of contemporary research in international political sociology IPS Bringing together leading scholars from many disciplines and diverse geographical backgrounds it provides unprecedented coverage of the key concepts and research through which IPS has opened up new ways of thinking about international relations It also considers some of the consequences of such innovations for established forms of social and political analysis It thus takes the reader on an intellectual journey engaging with questions about boundaries and limits among the many interrelated worlds in which we now live the ways we conceptualise them and how we continually reshape boundaries of identities spaces authorities and disciplinary knowledge The volume is organized three sections Lines Intersections and Directions The first section examines some influences that led to the formation of the project of IPS and how it has opened up avenues of research beyond the limits of an international relations discipline shaped within political science The second section explores some key concepts as well as a series of heated discussions about power and authority practices and governmentality performativity and reflexivity The third section explores some of the transversal topics of research that have been pursued within IPS including inequality migration citizenship the effect of technology on practices of security the role of experts and expertise data driven surveillance and the relation between mobility power and inequality This book will be an essential source of reference for students and across the social sciences *Illusions of Location Theory: Consequences for Blue Economy in Africa* Francis Onditi, Douglas Yates, 2021-01-05 Illusions of Location Theory Consequences for Blue Economy in Africa questions the relevance of location theory in explaining the coastal hinterland continuum and the implications for the utilization of blue economy ecosystem in such a contested space in Africa It pays more attention to territorial contestations maritime disputes vulnerabilities of landlocked states and expansionist policies as displayed through spatial organizational regimes These areas of investigation have previously been largely studied from the narrow perspective of location unduly focusing on comparative advantages of distance while neglecting the influence of forces such as technology ideology and the

power of mental mapping in spatial decision making This volume puts forward the argument that the harmonious relationship between states and efficient exploitation of the blue economy ecosystem in ways that promote peace between states lies not only in the structural transformation of markets but also in bridging the spatial and social divide between the coastal and hinterland societies Thus this work proffers possibilities for a holistic regime for managing Africa s coastal hinterland continuum through innovative strategies such as SMART blue economies and the infusion of the geopolitical dimension into the management of maritime and territorial diplomacy The combination of theoretical and empirical analysis buttressed by in depth case studies of what works in the management of blue economy ecosystem and what does not work make this volume ideal for researchers students and practitioners interested in African regional studies African political economy political geography strategic military studies governance of seas and oceans and maritime science diplomacy

Administrative Culture 14 (2) Wolfgang Drechsler, **Acting Politics** Alfredo Joignant, 2018-11-06 Following Bourdieu this book seeks to think about politics without thinking politically advancing the view that politics as conventionally understood does not take place in a social vacuum but in the context of a certain topography of society that cannot be reduced to formal spaces such as a parliament Engaging with Bourdieu's theory of fields and focusing specifically on the notion of the political field the author analyses from a sociological perspective the functioning of the political field seeing it not simply as a formal space but as encompassing a sphere that is increasingly autonomous from others and driven by reasons and motives beyond those conventionally recognised as political Illustrated with cases from the real political life of different countries Acting Politics examines the nature of the practices of the agents who inhabit the political field building a picture of a type of competitive political activity that is fundamentally social and symbolic A sociological reading of the agents struggles and forms of the contemporary political field this book thinks with and against Bourdieu in a broad dialogue with different sociological currents and debates in other disciplines As such it will appeal to scholars of politics and sociology with interests in social and political theory and political sociology **Symbolic Power, Politics, and Intellectuals** David L. Swartz, 2022-12-22 Power is the central organizing principle of all social life from culture and education to stratification and taste And there is no more prominent name in the analysis of power than that of noted sociologist Pierre Bourdieu Throughout his career Bourdieu challenged the commonly held view that symbolic power the power to dominate is solely symbolic He emphasized that symbolic power helps create and maintain social hierarchies which form the very bedrock of political life By the time of his death in 2002 Bourdieu had become a leading public intellectual and his argument about the more subtle and influential ways that cultural resources and symbolic categories prevail in power arrangements and practices had gained broad recognition In Symbolic Power Politics and Intellectuals David L Swartz delves deeply into Bourdieu's work to show how central but often overlooked power and politics are to an understanding of sociology Arguing that power and politics stand at the core of Bourdieu's sociology Swartz illuminates Bourdieu's political project for the social sciences as well as Bourdieu's own political activism explaining how sociology is not just science but also a crucial form of political engagement Manuel de culture générale - Cours & méthode Alexis Chabot, 2020-08-11 Cette compilation de Cours particulier de culture générale et de Culture générale Méthodologie de la dissertation propose toutes les connaissances et toute la méthode pour maîtriser la culture générale avec Un cours très structuré sur tous les points de culture générale De brefs extraits d'ouvrages Des conseils généraux de méthodologie Onze sujets préparés de dissertation **Cours particulier de culture générale - 3e édition revue et augmentée** Alexis Chabot, 2019-07-09 L'homme la démocratie la religion Autant

El juego político Alfredo Joignant, 2022-03-24 Este libro fue por primera vez publicado en inglés en 2019 por la editorial Routledge bajo un título difícilmente traducible al español Acting Politics a Critical Sociology of the Political Field en donde el sustantivo acting resuena a la vez como acción y actuación A través de este sustantivo lo que me propuse fue describir desde el mismo título el funcionamiento del campo político contemporáneo y la actividad que tiene lugar en su interior acciones pero también actuaciones en el sentido teatral y dramático del término Dada la dificultad de traducir el sustantivo preservando su polisemia en inglés renuncié rápidamente a ello buscando otra imagen para evocar lo mismo La solución a la que llegué fue llamar a este libro El juego político una sociología crítica del campo político precisamente porque la noción de juego no solo contiene la posibilidad de abstraerse de la realidad en todo tipo de culturas como ya lo había visto Huizinga en su Homo Ludens sino sobre todo de actuar como si el mundo político fuese un teatro ante públicos que no necesariamente están atentos a lo que allí ocurre Dicho de otro modo si hay un juego político al interior de un espacio diferenciado es porque quienes lo juegan son actores a través de representaciones no solo teatrales sino también simbólicas de los intereses de individuos y grupos que están siendo representados a través de una lucha que de lida tiene poco y de agonal mucho

Lawyering Europe Antoine Vauchez, Bruno de Witte, 2013-03-13 While scholarly writing has dealt with the role of law in the process of European integration so far it has shed little light on the lawyers and communities of lawyers involved in that process Law has been one of the most thoroughly investigated aspects of the European integration process and EU law has become a well established academic discipline with the emergence more recently of an impressive body of legal and political science literature on European law in context Yet this field has been dominated by an essentially judicial narrative focused on the role of the European courts underestimating

in the process the multifaceted roles lawyers and law play in the EU polity notably the roles they play beyond the litigation arena This volume seeks to promote a deeper understanding of European law as a social and political phenomenon presenting a more complete view of the European legal field by looking beyond the courts and at the same time broadening the scholarly horizon by exploring the ways in which European law is actually made To do this it describes the roles of the great variety of actors who stand behind legal norms and decisions bringing together perspectives from various disciplines law political science political sociology and history to offer a global multi disciplinary reassessment of the role of law and lawyers in the European integration process
