Prisoner Carolyn McKay, 2018-06-13 Technological linkages between justice and law enforcement agencies are radically altering criminal process and access to justice for prisoners Video links integral to an increasingly networked justice matrix enable the custodial appearance of prisoners in remote courts and are becoming the dominant form of court appearance for incarcerated defendants This book argues that the incorporation of such technologies into prisons is not without consequence technologies make a critical difference to prisoners experiences of criminal justice By focusing on the prison endpoint and engaging with the population most affected by video links the prisoners themselves this book interrogates the legal and conceptual shifts brought about by the technology s displacement of physical court appearance The central argument is that custodial appearance has created a heightened zone of demarcation between prisoners and courtroom participants This demarcation is explored through the transformed spatial corporeal and visual relationships The cumulative demarcations challenge procedural justice and profoundly recompose prisoners legal experiences in ways not necessarily recognised by policy makers

Courthouse Architecture, Design and Social Justice Kirsty Duncanson, Emma Henderson, 2021-09-28 This collection interrogates relationships between court architecture and social justice from consultation and design to the impact of material and immaterial forms on court users through the lenses of architecture law socio legal studies criminology anthropology and a former senior federal judge International multidisciplinary collaborations and single author contributions traverse a range of methodological approaches to present new insights into the relationship between architecture design and justice These include praxis photography reflections on process and decolonising practice postcolonial feminist and poststructural analysis and theory from critical legal scholarship

political science criminology literature sociology and architecture While the opening contributions reflect on establishing design principles and architectural methodologies for ethical consultation and collaboration with communities historically marginalised and exploited by law the central chapters explore the textures and affects of built forms and the spaces between examining the disjuncture between design intention and use and investigating the impact of architecture and the design of space The collection finishes with contemplations of the very real significance of material presence or absence in courtroom spaces and what this might mean for justice Courthouse Architecture Design and Social Justice provides tools for those engaged in creating and reflecting on ethical design and building use and deepens the dialogue across disciplinary boundaries towards further collaborative work in the field It also exists as a new resource for research and teaching facilitating undergraduate critical thought about the ways in which design enhances and restricts access to justice
