Databases for Data-Centric Geotechnics Kok-Kwang Phoon, Chong Tang, 2024-12-20 *Databases for Data Centric Geotechnics* forms a definitive reference and guide to databases in geotechnical and rock engineering to enhance decision making in geotechnical practice using data driven methods This first volume pertains to site characterization The opening chapter presents an in depth analysis of site data attributes including the establishment of a new taxonomy of site

data under 4S site generalizations spatial features sampling characteristics and smart data to provide a novel agenda for data driven site characterization Type 3 machine learning methods disruptive value are possible as sensors become more pervasive and more intelligent A comprehensive overview of site characterization information is also presented with a focus on its availability coverage value to decision making and challenges The remaining 13 chapters cover databases of soil and rock properties and the application of these databases to rock socket behavior rock classification settlement on soft marine clays permeability of fine grained soils and liquefaction among others The databases were compiled from studies undertaken in many countries including Austria Australia Brazil Canada China France Finland Germany India Iran Japan Korea Malaysia Mexico New Zealand Norway Singapore Sweden Thailand the United Kingdom and the United States This volume on site characterization is a companion to the volume on geotechnical structures Databases for Data Centric Geotechnics represents the most diverse and comprehensive assembly of database research in a single publication consisting of two volumes to date It follows from Model Uncertainties for Foundation Design also published by CRC Press and suits specialist geotechnical engineers researchers and graduate students

Reliability of Geotechnical Structures in ISO2394 K.K. Phoon,J.V. Retief,2016-11-25 The latest 4th edition of the international standard on the principles of reliability for load bearing structures ISO2394 2015 includes a new Annex D dedicated to the reliability of geotechnical structures The emphasis in Annex D is to identify and characterize critical elements of the geotechnical reliability based design process This book contains a wealth of data and information to assist geotechnical engineers with the implementation of semi probabilistic or full probabilistic design approaches within the context of established geotechnical knowledge principles and experience The introduction to the book presents an overview on how reliability can play a complementary role within prevailing norms in geotechnical practice to address situations where some measured data and or past experience exist for limited site specific data to be supplemented by both objective regional data and subjective judgment derived from comparable sites elsewhere The principles of reliability as presented in ISO2394 2015 provides the common basis for harmonization of structural and geotechnical design The balance of the chapters describes the uncertainty representation of geotechnical design parameters the statistical characterization of multivariate geotechnical data and model factors semi probabilistic and direct probability based design methods in accordance to the outline of Annex D This book elaborates and reinforces the goal of Annex D to advance geotechnical reliability based design with geotechnical needs at the forefront while complying with the general principles of reliability given by ISO2394 2015 It serves as a supplementary reference to Annex D and it is a must read for designing geotechnical structures in compliance with ISO2394 2015

Cone Penetration Testing 2022 Guido Gottardi,Laura Tonni,2022-11-11 This abstracts volume including full keynote and invited papers contains the proceedings of the 5th International Symposium on Cone Penetration Testing CPT 22 held in Bologna Italy 8 10 June 2022 More than 500 authors academics researchers practitioners and manufacturers contributed to the peer reviewed papers included in this book which

includes three keynote lectures four invited lectures and 169 technical papers The contributions provide a full picture of the current knowledge and major trends in CPT research and development with respect to innovations in instrumentation latest advances in data interpretation and emerging fields of CPT application The paper topics encompass three well established topic categories typically addressed in CPT events Equipment and Procedures Data Interpretation Applications Emphasis is placed on the use of statistical approaches and innovative numerical strategies for CPT data interpretation liquefaction studies application of CPT to offshore engineering comparative studies between CPT and other in situ tests Cone Penetration Testing 2022 contains a wealth of information that could be useful for researchers practitioners and all those working in the broad and dynamic field of cone penetration testing

Landslides in Sensitive Clays Vikas Thakur, Jean-Sébastien L'Heureux, Ariane Locat, 2017-05-23 This book gathers the most recent scientific research on the geological geotechnical and geophysical aspects of slope failure in sensitive clays Gathering contributions by international experts it focuses on understanding the complete and practical spectrum of challenges presented by landslides in such complex materials Based on sound and validated research results the book also presents several recommendations that could be implemented in the guidelines or code of practice These recommendations cover topics including the characterization and behavior of sensitive clays the pre failure failure and post failure stages of sensitive clays mapping and identification methods climate change hazard assessment and risk management Sensitive clays are known for their potential for causing large landslides which pose a serious risk to human lives infrastructure and surrounding ecosystems within their reach This has been demonstrated by the recent catastrophic landslides in e g S rum 2016 Skjeggstad 2015 Statland 2014 Byneset 2012 St Jude 2010 Lyngen 2010 and Kattmarka 2009 The 2015 collapse of the Skjeggstad Bridge in Norway which was due to a landslide in sensitive clay alone costs millions of dollars in repairs Recently efforts are being made to increase society's ability to cope with such landslide hazards Geoscientists are now expected to provide input to the agencies responsible for landslide risk preparedness In other words geoscientists role is not only to act as technologists to establish new theories but also to go the extra mile to implement them in practice so as to find meaningful solutions to geotechnical problems

emerging digital economy and the resulting challenges and opportunities for urban workplaces It examines contemporary economic and social transformations in India by focusing on how new technologies and policies are shaping urban work practices and patterns The book emphasizes inclusive and equitable practices that consider the needs of the formal and informal sector workforce as essential to India's urban development Drawing on cross disciplinary frameworks it examines key issues related to work trends in the Indian urban economy and its digital landscapes including Industry 4.0 and technology labour nexus smart cities and innovation urbanism and consumerism workplace transitions such as service industry and remote work digital divide skill development initiatives and the impact of socio economic inequalities and disruptions The authors provide perspectives on the digital future of urban work in India and other emerging economies in the post COVID 19 phase and underscore the importance of enacting balanced policies remodelling institutions and equipping the labour force for adapting to new demands related to future employability and investments This book will interest students teachers and researchers of urban studies urban sociology sociology of work labour studies human and urban geography economic geography urban economics development studies urban development and planning public policy regional planning politics of urban development social and cultural change urban sustainability environmental studies management studies South Asian Studies and Global South studies It will also be useful to policymakers non governmental organizations activists and those interested in India and the future of the global economy

Model Uncertainties in Foundation Design Chong Tang, Kok-Kwang Phoon, 2021-03-16 *Model Uncertainties in Foundation Design* is unique in the compilation of the largest and the most diverse load test databases to date covering many foundation types shallow foundations spudcans driven piles drilled shafts rock sockets and helical piles and a wide range of ground conditions soil to soft rock All databases with names prefixed by NUS are available upon request This book presents a comprehensive evaluation of the model factor mean bias and coefficient of variation COV for ultimate and serviceability limit state based on these databases These statistics can be used directly for AASHTO LRFD calibration Besides load test databases performance databases for other geo structures and their model factor statistics are provided Based on this extensive literature survey a practical three tier scheme for classifying the model uncertainty of geo structures according to the model factor mean and COV is proposed This empirically grounded scheme can underpin the calibration of resistance factors as a function of the degree of understanding a concept already adopted in the Canadian Highway Bridge Design Code and being considered for the new draft for Eurocode 7 Part 1 EN 1997 1 202x The helical pile research in Chapter 7 was recognised by the 2020 ASCE Norman Medal

Assessing English Language Proficiency in U.S. K-12 Schools Mikyung Kim Wolf, 2020-05-31 *Assessing English Language Proficiency in U S K 12 Schools* offers comprehensive background information about the generation of standards based English language proficiency ELP assessments used in U S K 12 school settings The chapters in this book address a variety of key issues involved in the development and use of those assessments defining an ELP construct driven by

new academic content and ELP standards using technology for K 12 ELP assessments addressing the needs of various English learner EL students taking the assessments connecting assessment with teaching and learning and substantiating validity claims Each chapter also contains suggestions for future research that will contribute to the next generation of K 12 ELP assessments and improve policies and practices in the use of the assessments This book is intended to be a useful resource for researchers graduate students test developers practitioners and policymakers who are interested in learning more about large scale standards based ELP assessments for K 12 EL students Multi-lingual Information Access in South Asian Languages Prasenjit Majumder,Mandar Mitra,Pushpak Bhattacharya,L. Venkata Subramaniam,Danish Contractor,Paolo Rosso,2013-08-13 This book constitutes the thoroughly refereed post proceedings of the Second and Third Workshops of the Forum for Information Retrieval Evaluation FIRE 2010 and 2011 on Multi lingual Information Access in South Asian Languages held in Gandhinagar India in February 2010 and in Bombay India in December 2011 The volume brings together revised and expanded versions of a total of 29 papers The papers are organized in topical sections on various aspects of multi lingual information access **Advances in Bioengineering and Clinical Engineering 2025** Diego Sebastián Comas, Recent Advances and the Future Generation of Neuroinformatics Infrastructure Xi Cheng,Daniel R. Weinberger,Daniel Marcus,John Van Horn,Venkata Satyanand Mattay,Qian Luo,2015-12-11 The huge volume of multi modal neuroimaging data across different neuroscience communities has posed a daunting challenge to traditional methods of data sharing data archiving data processing and data analysis Neuroinformatics plays a crucial role in creating advanced methodologies and tools for the handling of varied and heterogeneous datasets in order to better understand the structure and function of the brain These tools and methodologies not only enhance data collection analysis integration interpretation modeling and dissemination of data but also promote data sharing and collaboration This Neuroinformatics Research Topic aims to summarize the state of art of the current achievements and explores the directions for the future generation of neuroinformatics infrastructure The publications present solutions for data archiving data processing and workflow data mining and system integration methodologies Some of the systems presented are large in scale geographically distributed and already have a well established user community Some discuss opportunities and methodologies that facilitate large scale parallel data processing tasks under a heterogeneous computational environment We wish to stimulate on going discussions at the level of the neuroinformatics infrastructure including the common challenges new technologies of maximum benefit key features of next generation infrastructure etc We have asked leading research groups from different research areas of neuroscience neuroimaging to provide their thoughts on the development of a state of the art and highly efficient neuroinformatics infrastructure Such discussions will inspire and help guide the development of a state of the art highly efficient neuroinformatics infrastructure **Emerging Technologies Powering Rare and Neglected Disease Diagnosis and Therapy Development** Zhichao Liu,Shraddha Thakkar,Qais Y.
