

Question	Answer	Marks	Notes
1(e)	Explain how each of the following can help Jerome increase added value: - Change the packaging - Use cheaper materials Award 1 mark for identification of each relevant point (max 2). Award 1 mark for each relevant reference made to this business (max 2). Award 1 mark for each relevant explanation (max 2). Points might include: Change the packaging: - This will allow Jerome to be able to increase the price [x] of his drink [app] increasing the gap between price and costs [an] - Customers can perceive the product to be worth more [x] so may be prepared to pay more for the same product [an] Use cheaper materials: - This will help lower input costs [x] when making 10 000 units [app] increasing the gap between cost and price [an] - Lower costs [x] can lead to higher profit per unit sold [an] Other appropriate responses should also be credited.	6	Note: To use words from the stem as application, the reference must be appropriate (i.e. make sense) in relation to the point being made. The following words are likely to be appropriate for this question: - low sugar drinks 200 units above break-even 10 000 units sold 9800 (break-even) Other appropriate examples in context can still be credited.

- 1 After identifying a gap in the soft drinks market, Jerome developed a low sugar drink. He borrowed \$5 000 from family and friends to start-up a business and to provide working capital. Jerome operates as a sole trader. To promote his product, Jerome handed out free samples in the town centre. In the first year, Jerome's business sold 10 000 units. This is 200 units more than his break-even output. Jerome is considering ways to increase added value.

Question	Answer	Marks	Notes
1(e)	Do you think being a risk-taker is a more important characteristic of a successful entrepreneur than being creative? Justify your answer. Award up to 2 marks for identification of relevant points. Award up to 2 marks for relevant development of points. Award 2 marks for a justified decision as to whether being a risk-taker is a more important characteristic of a successful entrepreneur than being creative. Points might include: Risk-taker: - A successful entrepreneur must take risks otherwise there is no business [x] - Entrepreneurs take the risk of investing their own money [x] this may bring high rewards [an] however they may fail and lose their personal possessions [an] - Taking risks is a way to learn [x] if an idea is good or not [an] Creative: - New ideas [x] leading to increased sales/revenue [an] - Creativity adds value [x] so higher prices can be charged [an] - Creativity alone does not guarantee success [x] if customers do not purchase [an] Other appropriate responses should also be credited. Justification might include: Entrepreneurs take the risk of investing their own money [x] this may bring high rewards [an]. Being creative may be a more important characteristic as making a business different to its competitors [x] can lead to increased sales [an]. In a competitive market creativity is especially important because it helps the business stand out from competitors. [eval] An entrepreneur can take risks, but if customers will not buy, they will not be successful. [eval]	6	This is a general question so there are no marks for application. For evaluation to be awarded justification will usually follow on from relevant analysis of points.

International Conference on Water Resource and Environmental Protection, 2014-07-23 The 2014 International Conference on Water Resource and

Environmental Protection WREP2014 aims to bring researchers engineers and students to the areas of Water Resource and Environmental Protection WREP2014 features unique mixed topics of Water Resource and Environmental Protection in the context of building healthier ecology and environment The conference will provide a forum for sharing experiences and original research contributions on those topics Researchers and practitioners are invited to submit their contributions to WREP2014 This proceeding tends to collect the up to date comprehensive and worldwide state of art knowledge on water resource and environmental protection All of accepted papers were subjected to strict peer reviewing by 2 4 expert referees The papers have been selected for this proceedings based on originality significance and clarity for the purpose of the conference The selected papers and additional late breaking contributions to be presented will make an exciting technical program on WREP2014 conference The conference program is extremely rich featuring high impact presentation We hope this conference will not only provide the participants a broad overview of the latest research results on water resource and environmental protection but also provide the participants a significant platform to build academic connections

Doctoral Research in Construction Management Zhen Chen,Heng Li,2023-02-17 **Do Commodity Futures Help Forecast Spot Prices?** Mr.David A Reichsfeld,Mr.Shaun K. Roache,2011-11-01 We assess the spot price forecasting performance of 10 commodity futures at various horizons up to two years and test whether this performance is affected by market conditions We reject efficient markets based on in sample tests but out of sample we find that the forecast from the futures market is hard to beat We find that the forecasting performance of futures does not depend on the slope of the futures curve in contrast to the predictions of well known models of commodity markets We also find futures forecasting performance to be invariant to whether prices are in an upswing or downswing casting doubt on aspersions that uninformed investors participating during bull markets impede the price discovery process **The Moral Imagination and the Legal Life** Zenon Bankowski,Maksymilian Del Mar,2016-03-03 What role can resources that go beyond text play in the development of moral education in law schools and law firms How can these resources especially those from the visual and performing arts nourish the imagination needed to confront the ethical complexities of particular situations This book asks and answers these questions thereby introducing radically new resources for law schools and law firms committed to fighting against the moral complacency that can all too often creep into the life of the law The chapters in this volume build on the companion volume The Arts and the Legal Academy also published by Ashgate which focuses on the role of non textual resources in legal education generally Concentrating in particular on the moral dimension of legal education the contributors to this volume include a wide range of theorists and leading legal educators from the UK and the US **Science, Technology and Cultural Heritage** M.A. Rogerio-Candelera,2014-12-01 The Second International Congress on Science and Technology for the Conservation of Cultural Heritage was held in Seville Spain June 24 27 2014 under the umbrella of the TechnoHeritage network TechnoHeritage is an initiative funded by the Spanish Ministry of Economy and Competitvity dedicated to the

creation of a network which integrates CSIC and University groups private companies and end users such as foundations museums or institutions The network s purpose is to foster the creation of transdisciplinary and not only multidisciplinary initiatives focused on the study of all assets movable or immovable that make up Cultural Heritage The congress was dedicated to six topics namely 1 Environmental assessment and monitoring pollution climate change natural events etc of Cultural Heritage 2 New products and materials for conservation and maintenance of Cultural Heritage 3 Agents and mechanisms of deterioration of Cultural Heritage physical chemical biological including deterioration of modern materials used in Contemporary Art and information storage 4 Development of new instruments non invasive technologies and innovative solutions for analysis protection and conservation of Cultural Heritage 5 Security technologies remote sensing and G I S for the protection and management of Cultural Heritage and 6 Significance social value and policies for the conservation of Cultural Heritage This volume publishes a total of seventy two contributions which reflect some of the most recent responses to the challenge of cultural assets conservation and the application of different scientific approaches to the common goal of the conservation of Cultural Heritage
