Sa 2015 2016 Budget Speech:

The Political Economy of Mental Illness in South Africa André J van Rensburg, 2021-02-17 The book describes key socio political reforms that helped shape post apartheid South Africa s mental health system The author interrogates how reforms shaped public community based services for people living with severe mental illness and how features of this care has been determined in part at least by the relations between actors and structures in the state private for profit health care and civil society spheres A description of the development of South Africa s post apartheid health system and the contentions that emerge therein sets the stage for an analysis of the country s most tragic human rights failure during its democratic period namely the Life Esidimeni tragedy The roots of the tragedy are not only framed as a loss of life and dignity as a result of political corruption and administrative mismanagement but as a power differential that ultimately highlights an unjust system that relegates its most vulnerable citizens to commodities without voice and without agency The book concludes that the commodification of severe mental illness has been a product of neoliberal discourses that have shaped the economic ways in which the post apartheid South African state have governed poverty and severe mental illness This book will be of interest to scholars of health social and economic policy in South Africa

Fees Must Fall Susan Booysen, 2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and it s double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt

Acid Mine Drainage in South Africa Suvania Naidoo, 2016-10-13 This SpringerBrief focuses on Acid Mine Drainage AMD in the three basins in the Witwatersrand South Africa It provides a background to AMD and its impacts from a social science perspective The South African government and non governmental organizations response to AMD is assessed as well the socio economic and developmental effects of AMD This volume which is based on the

author's Master's dissertation at UNISA involves interviews with a range of experts in the field from government departments environmental organisations activists the private sector mining tourism sector and the agricultural sector The book discusses existing policy documents on AMD and provides recommendations in response to the many socio economic impacts which have not been fully addressed A literature review on the global context of AMD is provided South Africa's water systems are already severely harmed by climate change different forms of pollution and poorly managed sanitation systems For these reasons the country is becoming increasingly water stressed and therefore water will continue to become much scarcer in the future As a result of AMD's continued impact on South Africa's water systems as a technical or scientific matter as well as the policy implications for the mining sector water security and socio economic sustainability has become a highly contested issue

Security, Governance, and State Fragility in South Africa Edward L. Mienie, 2020-03-06 Do existing measures of state fragility measure fragility accurately Based on commonly used fragility measures South Africa SA is classified as a relatively stable state yet rising violent crime high unemployment endemic poverty eroding public trust identity group based preferential treatment policies and the rapid rise of the private security sector are all indications that SA may be suffering from latent state fragility Based on a comprehensive view of security this study examines the extent to which measures of political legitimacy and good governance effectiveness in the security system especially with respect to the police system and mounting economic challenges may be undermining the stability of SA in ways undetected by commonly used measures of state fragility Using a mixed methods approach based on quantitative secondary data analysis and semi structured interviews with government officials security practitioners and leading experts in the field this study finds that the combination of colonization apartheid liberation struggle transition from autocracy to democracy high levels of direct and structural violence stagnating social political and economic developments make South Africa a latently fragile state Conceptually the results of this research call into question the validity of commonly used measures of state fragility and suggest the need for a more comprehensive approach to assessing state fragility Practically this study offers a number of concrete policy recommendations for how South Africa may address mounting levels of latent state fragility

Mixed Fortunes Paul Tilley, 2024-03-12 Australia's history is sprinkled with attempts at tax reform some successful some not Mixed Fortunes explores these efforts at substantive change in our tax system Paul Tilley takes us from the establishment of the Australian Constitution at Federation in 1901 and the 1942 unification of income tax through the seminal Asprey review in 1975 that set up the major tax reforms of the 1980s and 1990s and up to the lack of tax reform at both the Commonwealth and state levels this century Mixed Fortunes examines the roles of foundational reviews which establish the case for reform and determinative reviews which implement reform It assesses both the political economy issues of policymaking and the quality of the tax reforms that have been achieved in Australia The key questions it addresses include What makes a reform exercise work or not How do we assess the quality of Australia's tax reforms And what lessons can be drawn from these

university and other post secondary education experiences in the UK and internationally Public Value Theory and Budgeting Usman W. Chohan, 2019-05-22 Public value theory has advanced over the past 30 years but there is a need to extend its boundary outwards into new contexts and update its discourse to reflect new social challenges We are now trying to create value in a globalized world with supranational entities with new international alliances and institutions in a frightening post truth era How can public managers grapple with these emerging realities This book seeks to provide answers to such public value questions by applying powerful budgeting perspectives Using case studies of independent budget offices key fiscal instruments and leading public value frameworks this book stands out in its use of budgetary lenses to answer pertinent questions about the multidimensional processes of value creation by and for a wider society Pushing the debate on public value forward and taking it onto the global stage the book asks whether public value and other public administration theories are applicable beyond the traditional context of the pro globalization Western liberal democracies in which they were conceived It does this by exploring the realms of developing countries supranational entities and post Communist societies among others Finally it presents these explorations in light of very recent sociopolitical trends and phenomena including the growth of civil society the global financial crisis the illiberal democracy and the post truth era Tailored to an audience comprising public administration scholars students of government budget practitioners and social scientists interested in contemporary problems of values in society this book helps to advance public administration thought by extending public value theory into new contexts and relating it to the growing global challenges of public life **BRICS and International Tax Law** Peter Antony Wilson, 2016-04-24 With the ongoing expansion of outbound foreign direct investment FDI in the countries representing the BRICS economic bloc Brazil Russia India China and South Africa and with all of them at the same time listed among the top seven countries plagued by tax evasion and avoidance in the guise of illicit out flows the governments both individually and through cooperative initiatives have devised new international tax strategies that are proving to be of great interest and value to other countries both developing and developed The core of these strategies addresses the necessity of stemming the out flow of revenue while strongly supporting FDI both inbound and outbound while complying with international obligations including those arising from human rights laws This book is the first in depth commentary on this new and evolving area of international tax law The detailed analysis covers the entire field of BRICS international tax law considering topics such as the following information exchange procedures and pitfalls response to the OECD's Base Erosion and Profit Sharing BEPS initiative role of bilateral and multilateral double taxation conventions including the Multilateral Instrument and the Bilateral Investment Treaties thin capitalization transfer pricing controlled foreign corporation rules shortcomings related to authorities limited manpower international audit and investigation procedures the BRICS approach to residence and mandatory and binding arbitration and the BRICS approach to shaping the developing world's international tax system Notably the author personally conducted interviews with senior international

representatives of the BRICS tax authorities as well as with leading BRICS academics and practitioners Tax cases together with human rights and investment cases and administrative guidelines in all ve countries are also included in the analysis The study concludes with recommendations for improving each of the ve countries tax law and procedures especially in the area of dispute resolution The author s goal is to extend the existing body of knowledge of the BRICS international tax laws in order to assist in developing an understanding of the BRICS approach to dealing with evasion and avoidance an approach which facilitates both outbound and inbound FDI simpli es tax authority administration and establishes a basis for resolving international disputes which is compatible with sovereignty In achieving this objective the author has produced a major work that is of immeasurable value to tax advisers government and governance of cials academics and researchers both in developing international taxation strategies and in helping to resolve disputes with tax authorities *Grid-locked African Economic Sovereignty* Victor Warikandwa, Artwell Nhemachena, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions **Implementing fiscal and pricing policies to promote healthy diets** , 2021-09-14 Prices and promotions of foods and non alcoholic beverages within the food environment can incentivize or disincentivize consumers food decisions Currently however prices and promotions often encourage selection of foods that undermine healthy diets To address this challenge and to support Member States in implementing policy measures as recommended by the Framework for Action from the 2014 Second International Conference on Nutrition the World Health Organization WHO is in the process of developing evidence informed policy guidelines on the food environment including fiscal and pricing policies This review on contextual factors to be considered in the implementation of fiscal and pricing policies was prepared as part of the required process for WHO guideline development **Annual Report on Exchange Arrangements and Exchange Restrictions 2017** International Monetary Fund.
