areas of employment Marco Jowell has spent a decade working in peacekeeping training in East Africa initially as one of the foreign Technical Advisers at the Peace Support Operations PSO training centre in Kenya the International Peace Support Training Centre IPSTC and subsequently as a strategic adviser to the Rwanda Peace Academy Using first hand experience he considers how military forces from a variety of African states with great differences in history language and political systems and with militaries with different cultures and capabilities can conduct complicated multinational peacekeeping operations He shows how regional peacekeeping training centres provide an environment for African elites predominately military to interact with each other through shared training and experiences This process of interaction or socialisation improves skills but also encourages cohesion so that future African led missions will be managed by well trained officers who are comfortable and willing to work within a regional or Pan African framework Jowell shows that part of the aim of peacekeeping training centres is to foster a Pan African outward looking ideology or disposition as well as improving technical ability This book will be essential reading for all involved with African military and security studies and analysts of peacekeeping training and operations *The Russian Understanding of War* Oscar Jonsson,2019-11-01 This book analyzes the evolution of Russian military thought and how Russia s current thinking about war is reflected in recent crises While other books describe current Russian practice Oscar Jonsson provides the long view to show how Russian military strategic thinking has developed from the Bolshevik Revolution to the present He closely examines Russian primary sources including security doctrines and the writings and statements of Russian military theorists and political elites What Jonsson reveals is that Russia s conception of the very nature of war is now changing as Russian elites see information warfare and political subversion as the most important ways to conduct contemporary war Since information warfare and political subversion are below the traditional threshold of armed violence this has blurred the boundaries between war and peace Jonsson also finds that Russian leaders have particularly since 2011 12 considered themselves to be at war with the United States and its allies albeit with non violent means This book provides much needed context and analysis to be able to understand recent Russian interventions in Crimea and eastern Ukraine how to deter Russia on the eastern borders of NATO and how the West must also learn to avoid inadvertent escalation [The Statesman's Yearbook 2024](#) Palgrave Macmillan,2024-01-03 Now in its 160th edition The Statesman s Yearbook continues to be the reference work of choice for accurate and reliable information on every country in the world Covering political economic social and cultural aspects the Yearbook is also available online for subscribing institutions [Foundations of Chaplaincy](#) Alan T. Baker,2021-02-18 An approachable overview of the nature purpose and functional roles of chaplaincy Chaplaincy is unlike any other kind of ministry It involves working outside a church without a congregation usually in a secular organization It requires ministering to those with starkly different religious convictions many of whom may never enter a house of worship It is as Alan Baker writes ministry in motion Those who are embarking upon this unique and specialized call deserve equally unique and specialized guidance and Foundations

of Chaplaincy offers exactly that Baker surveys the biblical and theological foundations of chaplaincy before enumerating four specific responsibilities and skills that define chaplaincy's ministry of presence providing facilitating caring and advising Baker's thorough guidance on these matters is supplemented in sidebars with practical advice and anecdotes from over thirty chaplains currently serving in a variety of settings and organizations Chaplains who serve in healthcare the military correctional institutions police and fire departments sports teams college campuses and corporations have essential roles to play in their respective organizations but theirs is rarely an easy calling With Foundations of Chaplaincy as an introduction and an ongoing reference those called to this important vocation may be assured of having the tools they need to cultivate a strong mission driven pastoral identity rooted in their own theological tradition while simultaneously participating in a multi faith team
