Department of Defense Appropriations for 2015: Defense Health Program; FY 2015 National Guard and Army Reserve; Testimony of members of Congress; U.S. Pacific Command United States. Congress. House. Committee on Appropriations. Subcommittee on Department of Defense, 2015 **South Africa's Post-Apartheid Military** Lindy Heineken, 2020-01-01

This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged. HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world. **Congressional Record** United States.

Congress, 2017-07-27 **Vehicle Feedback and Driver Situation Awareness** Guy H. Walker, Neville A. Stanton, Paul M. Salmon, 2018-04-17. A potentially troubling aspect of modern vehicle design, some would argue is a trend for isolating the driver and reducing vehicle feedback, usually in the name of comfort and refinement but increasingly because of automation. There is little doubt cars have become more civilised over the years yet despite this the consequences of driver behaviour remain to a large extent anecdotal. Readers will have heard such anecdotes for themselves. They usually take the form of drivers of a certain age recalling their first cars from the 1970s or 80s in which doing 70 mph really felt like it. The question is whether such anecdotes actually reflect a bigger, more significant issue that could be better understood. Related questions have been explored in other domains such as aviation where the change to fly by wire did indeed bring about some occasionally serious performance issues that were not anticipated. Despite some clear parallels, automotive systems have been left relatively unstudied. The research described in this book aims to explore precisely these issues from a Human Factors perspective. This means connecting the topics of vehicle feel, vehicle dynamics and automotive engineering with the latest research on driver situation awareness. The problem is explored experimentally from a variety of theoretical viewpoints but the outcomes are consistently practical. Here we have a promising new avenue along which the driver experience can be enhanced in novel and insightful ways. Tools and templates are provided so that engineers and designers can try different

ways to boost vehicle safety efficiency and enjoyment from a human centered perspective Association of American Publishers AAP Finalist for the 2019 PROSE Award Features Diagnosis of how vehicle feel impacts driver situation awareness and how this could aid future vehicle designs Multi theory approach to driver situation awareness and how different views of this important concept give rise to different insights Comprehensive analysis of situation awareness in driving the information requirements of drivers and how these needs can be supported Practical descriptions of how state of science Human Factors methods have been applied in practice Psychiatric & Mental Health Nursing for Canadian Practice Wendy Austin,Cindy Ann Peternelj-Taylor,Diane Kunyk,Mary Ann Boyd,2022-07-06 Thoroughly written extensively updated and optimized for today s evolving Canadian healthcare environment Psychiatric Mental Health Nursing for Canadian Practice 5th Edition equips students with the fundamental knowledge and skills to effectively care for diverse populations in mental health nursing practice This proven approachable text instills a generalist level mastery of mental health promotion assessment and interventions in adults families children adolescents and older adults delivering Canadian students the preparation they need to excel on the NCLEX exam and make a confident transition to clinical practice *Annual Report* South Africa. Why Human Rights? Eric Blumenson, 2024-08-01 Why Human Rights addresses universal human rights as moral mandates rights to justice that all persons have by virtue of their humanity alone These are not the legal rights of statutes and treaties but moral rights of the kind Gandhi King and Mandela invoked to oppose unjust laws All such rights presuppose three claims 1 that some duties of justice apply universally 2 that all human beings have equal moral significance and 3 that states must protect or serve certain individual interests regardless of the societal impact of doing so Can these three premises be justified Is the human equality claim for example rationally supportable or is it no less faith based than hierarchical doctrines like caste This book explores the case for these foundational claims along with other philosophical controversies pertaining to human rights Because these issues lie at the heart of moral and political philosophy readers will also obtain a broad appreciation of these disciplines and their leading theorists including Mill Kant Rawls Sandel Nozick Rorty and many others Written in concise jargon free language this book presents a high relief map of the philosophical issues surrounding human rights
