Fighting at the Legal Boundaries Kenneth Watkin OMM, CD, QC, 2016-05-03 The international law governing armed conflict is at a crossroads as the formal framework of laws designed to control the exercise of self defense and conduct of inter state conflict finds itself confronted with violent 21st Century disputes of a very different character Military practitioners who seek to stay within the bounds of international law often find themselves applying bodies of law IHRL IHL ICL in an exclusionary fashion and adherence to those boundaries can lead to a formal and often rigid application of the law that does not adequately address contemporary security challenges Fighting at the Legal Boundaries offers a holistic approach towards the application of the various constitutive parts of international law The author focuses on the interaction between the applicable bodies of law by exploring whether their boundaries are improperly drawn or are being interpreted in too rigid a fashion Emphasis is placed on the disconnect that can occur between theory and practice regarding how these legal regimes are applied and interact with one another Through a number of case studies Fighting at the Legal Boundaries explores how the threat posed by insurgents terrorists and transnational criminal gangs often occurs not only at the point where these bodies of law interact but also in situations where there is significant overlap In this regard the exercise of the longstanding right of States to defend nationals including the conduct of

Policing and Boundaries in a Violent Society Guy Lamb, 2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service SAPS By means of a historical analysis of South Africa this book introduces a new concept police frontierism which illuminates the nature of the relationships between the police policing and boundaries and can potentially be used for future case study research Drawing on a wealth of research this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary Focusing on cases of high density police operations public order policing and the recent policing of the COVID 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa This book will be of interest to scholars and students interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization

Handbook of BRICS and Emerging Economies PB Anand, Shailaja Fennell, Flavio Comim, 2020-12-16 Ever since Jim O Neill at Goldman Sachs coined the term BRICS in 2001 there have been many different assessments of these major emerging economies with some even proclaiming that the promise of the BRICS comprising Brazil Russia India China and South Africa is over However the so called arranged marriage still seems to be working well with the club having become a formal international forum with summit declarations ministerial meetings and numerous BRICS wide fora Is this euphoria misplaced Is there a BRICS model of economic and human development Are inequalities increasing and is this the denouncement of the economic successes Are geo political tensions rising between these nations During the post COVID 19 situation the importance of bilateral and multilateral co operation mechanisms and institutions is becoming clear This book focuses on one such emerging co operation mechanism of BRICS but also more widely on those five countries and other similar economies

As a global depression looms large global economic recovery depends on the performance of not only its largest economies but also many other important and significant economies within the so called G20 group Even prior to the COVID 19 outbreak multilateral institutions have been under considerable strain as with the relationship between the United States of America and China and risks to global economic recovery appear very real This book brings together multi disciplinary perspectives from over sixty scholars and it presents a comprehensive and deep dive into the BRICS and emerging economies and into an understanding the political economic and social contexts that can help in designing approaches for recovery and regaining the last momentum in the journey towards the Sustainable Development Goals

South Africa and the Case for Renegotiating the Peace

Pierre du Toit, Charl Swart, Salom, Teuteberg, 2016-11-11 South Africa is awash with policy failures and policy confusion We argue firstly that our current discord over policy details has its origin in the celebrated negotiated transition We hold that the vote count of an 85% majority in the Constituent Assembly in 1996 obscured the reality that the Constitution meant different things to different negotiators The result was that South Africa from the very start of the democratic era lacked a national consensus on how to go about consolidating democracy We keep on failing to build a proper roof over our democracy because the constitutional foundations are weak *The Statesman's Yearbook 2017* Palgrave Macmillan, 2017-02-28 Now in its 153rd edition The Statesman's Yearbook continues to be the reference work of choice for accurate and reliable information on every country in the world Covering political economic social and cultural aspects the Yearbook is also available online for subscribing institutions www.statesmansyearbook.com **Professional Journal of the United States Army**, 2016-11 **The Palgrave Handbook of Criminology and the Global South** Kerry Carrington, Russell Hogg, John Scott, Máximo Sozzo, 2018-01-12 The first comprehensive collection of its kind this handbook addresses the problem of knowledge production in criminology redressing the global imbalance with an original focus on the Global South Issues of vital criminological research and policy significance abound in the Global South with important implications for South North relations as well as global security and justice In a world of high speed communication technologies and fluid national borders empire building has shifted from colonising territories to colonising knowledge The authors of this volume question whose voices experiences and theories are reflected in the discipline and argue that diversity of discourse is more important now than ever before Approaching the subject from a range of historical theoretical and social perspectives this collection promotes the Global South not only as a space for the production of knowledge but crucially as a source of innovative research and theory on crime and justice Wide ranging in scope and authoritative in theory this study will appeal to scholars activists policy makers and students from a wide range of social science disciplines from both the Global North and South including criminal justice human rights and penology **Militarized Global Apartheid** Catherine Besteman, 2020-10-23 In *Militarized Global Apartheid* Catherine Besteman offers a sweeping theorization of the ways in which countries from the global north are reproducing South Africa's apartheid system on a worldwide scale to control the mobility and labor of people from the global south Exploring the different manifestations of global apartheid Besteman traces how militarization and securitization reconfigure older forms of white supremacy and deploy them in new contexts to maintain this racialized global order Whether using the language of security military intervention surveillance technologies or detention centers and other forms of incarceration these projects reinforce and consolidate the global north's political and economic interests at the expense of the poor migrants refugees Indigenous populations and people of color By drawing out how this new form of apartheid functions and pointing to areas of resistance Besteman opens up new space to theorize potential sources of liberatory politics **User-Avatar Bond: Risk and Opportunities in Gaming and Beyond** Vasileios
