Robles, 2019-01-01 The South China Sea Arbitration which marks the first time that the Philippines and China have been parties to a compulsory dispute settlement procedure is a landmark legal case The Tribunal tackled head on critical issues in the interpretation and application of the UN Convention on the Law of the Sea that other international courts have failed to address particularly the compatibility of historic rights with the Convention the identification of maritime features as permanently submerged or above water at high tide and the distinction between features that are fully entitled to maritime

zones and those that are not In addition the Tribunal also had to decide on issues as diverse as near collisions at sea illegal fishing of giant clams and sea turtles and the destruction of fragile coral reefs resulting from island building The Tribunals task was rendered arduous by Chinas refusal to appear before it In these circumstances understanding the Tribunals decisions is a challenging undertaking Chinas public relations campaign targeting the proceedings raised issues that the layperson could readily grasp notably African states support for its non appearance the integrity of the judges and the validity of arbitral awards Understanding the Awards and Debating with China aims to facilitate understanding of the South China Sea Arbitration by presenting detailed summaries of the two Arbitral Awards The author rebuts the questionable claims raised by Chinas public relations campaign and highlights Chinas covert actions during the proceedings **A Global**

Democratization: Perspectives from Different Gender-Theoretical Approaches Eva Maria Hinterhuber, Jana

Günther, 2024-01-30 The year 1918 was significant in many ways seeing the end of World War 1 At the same time the impact and transformational effects of this event enabled civil society activists and politically institutionalised actors in European countries to pick up the threads of democratic social movements and parliamentary aspirations and make use of political opportunity structures to obtain citizen rights for larger parts of the population One result of this process albeit with a difference between European states was that more groups in society gained suffrage Amongst those were large sections of the working class and women While the vote was won for some new social groups in European societies others were still excluded After one centennium of struggle for political participation we would like to discuss specific problems of politics of belonging The question concerning the full recognition of citizen rights was and continually is connected to ideas of a specific membership of a nation state a fact that denotes the particular problem of membership and non membership and of inside and outside This Research Topic will take account of this special field of tension of democratisation e g inclusion through exclusion from a perspective of social history political science gender studies and intersectionality approaches This analytical foil shall be used to examine the relationship between state or government action and civil society as well as the reproduction of social and political inequality despite increasing democratisation movements
