The South China Sea Arbitration Alfredo C. Robles, 2019-01-01 The South China Sea Arbitration which marks the first time that the Philippines and China have been parties to a compulsory dispute settlement procedure is a landmark legal case The Tribunal tackled head on critical issues in the interpretation and application of the UN Convention on the Law of the Sea that other international courts have failed to address particularly the compatibility of historic rights with the Convention the identification of maritime features as permanently submerged or above water at high tide and the distinction between features that are fully entitled to maritime zones and those that are not In addition the Tribunal also had to decide on issues as diverse as near collisions at sea illegal fishing of giant clams and sea turtles and the destruction of fragile coral reefs resulting from island building The Tribunal's task was rendered arduous by China's refusal to appear before it In these circumstances understanding the Tribunal's decisions is a challenging undertaking China's public relations campaign targeting the proceedings raised issues that the layperson could readily grasp notably African states support for its non appearance the integrity of the judges and the validity of arbitral awards Understanding the Awards and Debating with China aims to facilitate understanding of the South China Sea Arbitration by presenting detailed summaries of the two Arbitral Awards The author rebuts the questionable claims raised by China's public relations campaign and highlights China's covert actions during the proceedings

Pacifism and Pentecostals in South Africa Marius Nel,2018-06-27 Most of the early twentieth century Pentecostal denominations were peace churches that encouraged a stance of conscientious objection However since the Second World War Pentecostals have largely abandoned their pacifist viewpoint as they have taken on a more literal Biblical hermeneutic from their interaction with Evangelical denominations This book traces the history of nonviolence in Pentecostalism and suggests that a new hermeneutic of the Bible is needed by today s Pentecostals in order for them to rediscover their pacifist roots and effect positive social change The book focuses on how Pentecostalism has manifested in South Africa during the twentieth century Much of the available academic literature on hermeneutics and exegesis in the field of Pentecostal Studies is of an American or British European origin This book redresses this imbalance by exploring how the Bible has been used amongst African Pentecostals to teach on the apparent paradox of a simultaneously wrathful and loving God It then goes onto suggest that how the Bible is read directly affects how Pentecostals view their role as potential reformers of society So it must be engaged seriously and thoughtfully By bringing Pentecostalism s function in South African society to the fore this book adds a fresh perspective on the issue of pacifism in world Christianity As such it will be of great use to scholars of Pentecostal Studies Theology and Religion and Violence as well as those working in African Studies **Racing for the Surface** Bingyun Li,Thomas Fintan Moriarty,Thomas Webster,Malcolm Xing,2020-03-02 This book covers the latest research in biofilm infection and antimicrobial strategies in reducing and treating musculoskeletal skin transfusion implant related infections etc Topics covered include biofilms small colony variants antimicrobial biomaterials antibiotics antimicrobial peptides hydrogels bioinspired interfaces immunotherapeutic approaches and more antimicrobial coatings engineering and 3D printing antimicrobial delivery vehicles and perspectives on clinical impacts Antibiotic resistance which shifts the race toward bacteria and strategies to reduce antibiotic resistance are also briefly touched on Combined with its companion volume Racing for the Surface Pathogenesis of Implant Infection and Advanced Antimicrobial Strategies this book bridges the gaps between infection and tissue engineering and is an ideal book for academic researchers clinicians industrial engineers and scientists governmental representatives in national laboratories and advanced undergraduate students and post doctoral fellows who are interested in infection microbiology and biomaterials and devices **Army History** ,2018
