8.16 Adjusting the Coffee Grinder

! **Warning!** Do not pour ground and/or instant coffee into the coffee bean hopper. Do not put any material other than coffee beans into the hopper. The coffee grinder contains moving parts that may be dangerous. Therefore, do not insert fingers and/or other objects. Turn off the machine by pressing the OK/OFF button and remove the plug from the socket before carrying out any type of operation inside the coffee bean hopper.

The machine allows the coffee grinder to be slightly adjusted in order to adapt it to the kind of coffee used. For any adjustments, use the lever placed on the inner side of the machine service compartment.

1 With the machine turned on, open the service compartment door by using the appropriate key.

2 Disable the safety microswitch by inserting the key as shown in the figure.

! **Warning!** Disabling the safety microswitch entails a danger for the operator to come into contact with the moving parts of the appliance. Enable the safety device again right after completing the adjustment.

3 Turn the lever by only one notch at a time during the grinding phase. Brew 2-3 cups of coffee to verify changes in grind.

The reference marks indicate the grind setting. You can set different degrees of grind with the following references:

- 1 - Fine Grind
- 2 - Coarse Grind
