Bulletin of the Atomic Scientists ,1993-03 *Comparative Indigeneities of the Américas* M. Bianet

Castellanos, Lourdes Gutiérrez Nájera, Arturo J. Aldama, 2012-10-04 The effects of colonization on the Indigenous peoples of the Americas over the past 500 years have varied greatly. So too have the forms of resistance, resilience, and sovereignty. In the face of these differences, the contributors to this volume contend that understanding the commonalities in these Indigenous experiences will strengthen resistance to colonial forces still at play. This volume marks a critical moment in bringing together transnational and interdisciplinary scholarship to articulate new ways of pursuing critical Indigenous studies. *Comparative Indigenities of the Americas* highlights intersecting themes such as indigenismo, mestizaje, migration, displacement, autonomy, sovereignty, borders, spirituality, and healing that have historically shaped the experiences of Native peoples across the Americas. In doing so, it promotes a broader understanding of the relationships between Native communities in the United States and Canada and those in Latin America and the Caribbean and invites a hemispheric understanding of the relationships between Native and mestizo peoples. Through path-breaking approaches to transnational, multidisciplinary scholarship and theory, the chapters in this volume advance understandings of indigeneity in the Americas and lay a strong foundation for further research. This book will appeal to scholars and students in the fields of anthropology, literary and cultural studies, history, Native American and Indigenous studies, women and gender studies, Chicana/o studies, and critical ethnic studies. Ultimately, this deeply informative and empowering book demonstrates the various ways that Indigenous and mestizo peoples resist state and imperial attempts to erase, repress, circumscribe, and assimilate them.
