3 connecting the systems

1. How does the technology in *Avatar* fit the genre?

1. Do not connect the cable to the bus system. This might give rise to a system lock.
 2. When connecting the system, check the address, name and the channel in the menu.
 3. Plug the electronic module into a slot in station or to its master station that handles that mode. A slot assignment can be read from the electronic module.
 4. Do not hang the electronic cable through the bus cable.
4. As soon as a system is ready for use, the system can be de-energized. The required de-energizing is done by the system controller.
