Introduction to Political Thought Peri Roberts, 2012-02-28 This textbook now in its second edition is designed to equip students with a basic conceptual toolkit for the study of political thought i a basic political vocabulary ii a conceptual vocabulary and iii an historical vocabulary **Sg American Government 3e** Jillson, 2004-12 **The Republic** Plato, 2014-08-26 This highly regarded volume features a modern translation of all ten books of *The Republic* along with a synoptic table of contents a prefatory essay and an appendix on *The Spindle of Necessity* by the translator and editor Raymond Larson Also included are an introduction by Eva T H Brann a list of principal dates in the life of Plato and a bibliography **Plato: All That Matters** Ieuan Williams, 2013-12-27 In *Plato All That Matters* Ieuan Williams argues that no one can study philosophy or politics without an awareness of Plato whose work has reverberated through 2500 years of philosophy and history Dr Ieuan Williams explains both what Plato thought and why this continues to matter today In the ten years of research which have led up to this book Dr Williams has assessed the relevance of Plato to everything from the philosophy of education to media theory This important book shows how Plato remains as relevant today as he has ever been This accessible and readable book will appeal both to students and general readers giving a fascinating introduction to Plato and what matters most about his work *Foreign Disinformation in America and the U.S. Government's Ethical Obligations to Respond* Brian Murphy, 2023-04-18 The U S no longer has a free marketplace of ideas Instead the marketplace is saturated with covert foreign backed disinformation And despite the ethical obligations to act successive administrations have done nothing Additionally the decline in trust has left the door open for populism and illiberalism to enter Some believe the very fabric of American liberalism is at stake So what are the ethical responsibilities of the executive branch to counter covert campaigns such as the one coming from Russian backed disinformation circulating within the US Why has the government failed to act So far the practical challenges are daunting if the executive branch addresses the threat to the homeland The process to limit this problem is wrought with profound political implications By its very nature social media based disinformation is inextricably linked with existing complex societal cleavages the First Amendment and politics But the failure to do anything is a serious abdication of the government's ethical responsibilities This raises the question of where the line is for government intervention This work provides answers *Plato* Eric Voegelin, 2000 Once again available in paperback *Plato* is the first half of Eric Voegelin's *Plato and Aristotle* the third volume of his five volume *Order and History* which has been hailed throughout the Western world as a monumental accomplishment of modern scholarship *A Plato Primer* J.D.G. Evans, 2014-12-05 *A Plato Primer* introduces beginning students and the general reader to the main theses concepts and arguments in Plato's philosophy Subtle versatile and multi faceted though Plato's thought undoubtedly is it has a core that needs to be explored and savoured Evans presents this core as it appears over a large range of his works spread out over many decades of composition and many philosophical topics Through all this diversity Plato's original philosophical

personality shines through Evans approaches the material thematically in terms of modern philosophical categories in seven main chapters Within each of these individual treatments Evans follows the lines of argument in the main works of Plato that explore them Indications about how to pursue given topics in the secondary literature are given in the helpful guide to further reading

Why AI Undermines Democracy and What To Do About It Mark Coeckelbergh,2024-02-15 Across the world AI is used as a tool for political manipulation and totalitarian repression Stories about AI are often stories of polarization discrimination surveillance and oppression Is democracy in danger And can we do anything about it In this compelling and balanced book Mark Coeckelbergh reveals the key risks posed by AI for democracy He argues that AI as currently used and developed undermines fundamental principles on which liberal democracies are founded such as freedom and equality How can we make democracy more resilient in the face of AI And

more positively what can AI do for democracy Coeckelbergh advocates not only for more democratic technologies but also for new political institutions and a renewal of education to ensure that AI promotes rather than hinders the common good for the twenty first century Why AI Undermines Democracy and What to Do About It is illuminating reading for anyone who is concerned about the fate of democracy Now available as an audiobook **Public War, Private Conscience** Andrew Fiala,2010-07-01 A philosophical exploration of such subjects as terrorism just war and pacifism reflects on the moral demands that conflict makes on us especially its role in the struggle of public happiness versus private morality Original

The Digital Evolution of an American Identity C. Waite,2013-01-17 The Digital Evolution of an American Identity details how the concept of American individualism is challenged by the digital revolution As digital media alter our print dominant culture assumptions regarding the relationship of the individual to the larger community become increasingly problematic Current arguments regarding freedom of speech and confusion about what is meant by privacy illustrate the nature of the challenge C Waite defines individualism as the ways in which the American culture traditionally strives to balance the rights of the individual against the needs of the group Americans struggle to understand what it means to be responsible both for one s self and for the welfare of others They struggle with this not as an academic might but in concrete and specific cases often caught at cross purposes with conflicting goods This is a historic struggle intrinsic to the very fabric of America s democratic society as illustrated by its laws and customs The American democracy has supported a view of the person as an autonomous individual Yet that concept of American individualism no longer adequately captures the role of the self in the social world The digital environment challenges that autonomy by creating new avenues for speech and new forms of social networks Though the transition from a print based culture to the digital domain entails a global revolution American culture will suffer the consequences of that revolution more profoundly than other cultures because the concept of American individualism is foundational to its democratic way of life **The Logic of Information** Luciano Floridi,2019-02-14 Luciano Floridi presents an innovative approach to philosophy conceived as conceptual design He explores how we make transform refine and improve the objects of our knowledge His starting point is that reality provides the data to be understood as constraining affordances and we transform them into information like semantic engines Such transformation or repurposing is not equivalent to portraying or picturing or photographing or photocopying anything It is more like cooking the dish does not represent the ingredients it uses them to make something else out of them yet the reality of the dish and its properties hugely depend on the reality and the properties of the ingredients Models are not representations understood as pictures but interpretations understood as data elaborations of systems Thus Luciano Floridi articulates and defends the thesis that knowledge is design and philosophy is the ultimate form of conceptual design Although entirely independent of Floridi s previous books The Philosophy of Information OUP 2011 and The Ethics of Information OUP 2013 The Logic of Information both complements the existing volumes and presents new work on the foundations of the philosophy of information

Philosophical Mysticism in Plato, Hegel, and the Present Robert M. Wallace,2019-12-26 Few twenty first century academics take seriously mysticism s claim that we have direct knowledge of a higher or more inner reality or God But Philosophical Mysticism argues that such leading philosophers of earlier epochs as Plato G W F Hegel Ludwig Wittgenstein and Alfred North Whitehead were in fact all philosophical mystics This book discusses major versions of philosophical mysticism beginning with Plato It shows how the framework of mysticism s higher or more inner reality allows nature freedom science ethics the arts and a rational religion in the making to work together rather than conflicting with one another This is how philosophical mysticism understands the relationships of fact to value rationality to ethics and the rest And this is why Plato s notion of ascent or turning inward to a higher or more inner reality has strongly attracted such major figures in philosophy religion and literature as Aristotle Plotinus St Augustine Dante Alighieri Immanuel Kant Hegel William Wordsworth Ralph Waldo Emerson Emily Dickinson Whitehead and Wittgenstein Wallace s Philosophical Mysticism brings this central strand of western philosophy and culture into focus in a way unique in recent scholarship
