The National Union Catalog, Pre-1956 Imprints, 1968 *Modern Political Science* Robert Adcock, Mark Bevir, Shannon C. Stimson, 2009-01-10 Since emerging in the late nineteenth century political science has undergone a radical shift from constructing grand narratives of national political development to producing empirical studies of individual political phenomena What caused this change Modern Political Science the first authoritative history of Anglophone political science argues that the field's transformation shouldn't be mistaken for a case of simple progress and increasing scientific precision On the contrary the book shows that political science is deeply historically contingent driven both by its own inherited ideas and by the wider history in which it has developed Focusing on the United States and the United Kingdom and the exchanges between them Modern Political Science contains contributions from leading political scientists political theorists and intellectual historians from both sides of the Atlantic Together they provide a compelling account of the development of political science its relation to other disciplines the problems it currently faces and possible solutions to these problems Building on a growing interest in the history of political science Modern Political Science is necessary reading for anyone who wants to understand how political science got to be what it is today or what it might look like tomorrow

African Political Economy in the Twenty-First Century Ernest T. Aniche, Stephen N. Azom, Emeka C. Iloh, 2023-09-12 African Political Economy in the Twenty First Century Theories Perspectives and Issues edited by Emeka C Iloh Ernest T Aniche and Stephen N Azom fills the gap in the discourses on African political economy from an African perspective Since the end of colonialism in the second half of the twenty first century a wide ranging debate has opened on the future of African development and the nature and character of its political economy especially as it concerns its web of relationships in the international political and economic system Two decades into the twenty first 21st century the debate still rages on and is likely to continue for a long time This book contributes to the debate by addressing the important question of how African countries can strategically and tactically approach global political economy at multilateral continental and regional levels in view of North South versus South South configurations African Political Economy in the Twenty First Century further suggests how African countries can effectively utilize global forces to Africa's advantage in advancing domestic regional and continental development objectives

A Comparative Introduction to Political Science Alan G. Smith, 2016-04-08 When are legislators inclined to cast votes in cooperation with their parties and when do they go their own way When and why do nations contend with each other and when are they more likely to cooperate Thematically arranged around the interplay of contention and cooperation A Comparative Introduction to Political Science encourages students to explore causal factors and consequences related to political phenomena to become knowledgeable and resourceful citizens of their nations and the world Alan Smith covers how patterns of contention and cooperation and the resulting government policies may be affected by such factors as the surrounding political framework the distribution of influence and political motivation including values as well as material interests To expose students to the politics of specific nations each chapter concludes with two country case studies that illuminate the theme of the chapter Students emerge with a sense of what is going on in the world today Pedagogically the book employs careful sequencing of topics and concepts for clarity and to introduce politics in a natural logical synchronized way At times Smith goes beyond

sharp night and day terminological distinctions to add accessible ordinary language based terminology that better captures the real world spectrum between the extremes
