Port Cities and Intruders Michael N. Pearson,2002-10-14 Selected by Choice Magazine as an Outstanding Academic Title In Port Cities and Intruders historian Michael Pearson explores the role of port cities and their orientation relations between the coast and the interior the place of the coast in the world economy and the impact of the Portuguese in the early modern period *African Kingdoms* Linda Hill,AI,2025-03-19 African Kingdoms challenges conventional often Eurocentric views by exploring the sophisticated political economic and military systems of pre colonial African societies Delving into major kingdoms like Great Zimbabwe and the Ashanti Empire the book reveals how these societies were active agents in shaping their own destinies and influencing global events It highlights that many of these kingdoms possessed complex governance structures and extensive trade networks demonstrating their significant contributions to global civilization often overlooked in traditional histories This exploration unfolds chapter by chapter beginning with an introduction that sets the stage by addressing common misconceptions Subsequent chapters provide case studies analyzing each kingdom s political structure economic systems and military organization The book s research relies on diverse sources including archaeological evidence oral traditions and primary accounts ensuring a balanced portrayal By prioritizing African voices African Kingdoms offers a unique and more accurate perspective on pre colonial African history The book culminates by synthesizing its findings to assess the overall impact of African kingdoms on regional and global history It emphasizes their contributions to trade diplomacy and cultural exchange promoting a more nuanced understanding of the African past and its relevance to global history This approach provides valuable insights into alternative models of governance and development challenging stereotypes and fostering a deeper appreciation of African heritage Farmers, Kings, and Traders Martin Hall,1990-10-15 In this overview of the origins and development of black societies in southern Africa Martin Hall reconstructs the region s past by thoroughly examining both the archaeological and the historical records Beginning with the gradual southward movement of the earliest farmers nearly two thousand years ago Hall tracks the emergence of precolonial states such as Mapungubwe and Great Zimbabwe Farmers Kings and Traders concludes with the devastating effects of colonialism Through a close reading of the accounts of early travelers colonialists archaeologists and historians Hall places in context the often contradictory histories that have been written of this region The result is an illuminating look at how ideas about the past have themselves changed over time The Political Legacy of Colonialism in Zimbabwe Everisto Benyera,2024-11-18 This

book investigates the political legacy of colonialism in contemporary African institutions Using the case study of electoral and justice institutions in post colonial Zimbabwe the book explores how those in post colonial states relate to and with institutions initially designed to oppress them and remain structurally and systematically colonial The book argues that the colonial era colonised the land knowledge and minds of Africans resulting in injustice and epistemicides The book demonstrates how the critical institutions of elections and justice have been rendered anti black and toxic The book calls for Africa to invest in epistemic independence unencumbered by Western political modernity and then deploy that independence to build reconstituted institutions structures and systems that serve the interests of Africans This book will be an important read for African policymakers and researchers working on African politics governance and international relations

Society, Power, and Land in Northeastern Zimbabwe, ca. 1560-1960 Admire Mseba,2024-11-12 A little over two decades ago Zimbabwe undertook its Fast Track Land Reform Programme Critics saw it as nothing more than an assault on human and property rights for political expedience by a ruling elite that was fast losing

its power In contrast those sympathetic to the land reform program saw it as fundamental to the righting of colonialism's historical wrongs Yet rural displacements at the hands of state actors or of those closely connected to them continue As in the past the continuing land conflicts are mostly understood as the result of the actions of an authoritarian state that exploits its control of land for the political and economic benefit of those who inhabit it These explanations share one thing in common each understands the country's perpetual land questions in terms of the actions or inactions of the colonial or the postcolonial state This book refocuses attention on how regimes of power rooted in kinship gender generation and status have individually and in combination informed access to land in precolonial northeastern Zimbabwe It then examines how these regimes of power interacted with colonial policies to inform the African experience in colonial Zimbabwe Further the book places land and the ability to ensure its fecundity at the center of the making and moderation of precolonial political power and how this power was impacted by the imposition of colonial rule Tracing the dynamics of land and power from precolonial times together with their entanglement with colonial policies is important for this relationship is almost always neglected by both scholars and policymakers drawn to the high drama of colonial and postcolonial politics of land This oversight has real consequences on our understandings of landed inequalities and how they are addressed When Zimbabwe's postcolonial state focused on colonially induced racialized land inequalities its land reform efforts left older forms of landed inequalities based on gender generation and ideas of belonging intact The book which details these inequalities reminds Zimbabweans and others that if the quest for equity espoused in postcolonial land reforms is to be meaningful it must be attentive to both colonially induced inequalities and those enduring disparities that predated were deepened by and outlived colonial rule At the same time Zimbabweans who now live with a postcolonial state that is increasingly centralizing power over land may well learn from past societies' creative efforts to limit the authority of their leaders

The Archaeology of Africa Bassey Andah,Alex Okpoko,Thurstan Shaw,Paul Sinclair,2014-05-22 Africa has a vibrant past It emerges from this book as the proud possessor of a vast and highly complicated interweaving of peoples and cultures practising an enormous diversity of economic and social strategies in an extraordinary range of environmental situations At long last the archaeology of Africa has revealed enough of Africa's unwritten past to confound preconceptions about this continent and to upset the picture inferred from historic written records Without an understanding of its past complexities it is impossible to grasp Africa's present let alone its future

The Bible, the Bullet, and the Ballot Fabulous Moyo,2017-03-31 The Bible the Bullet and the Ballot provides a balanced account of the role of Christians Christian organisations and churches in sociopolitical transformation over the bedrock of colonial and nationalist politics in the past century in Zimbabwe Fabulous Moyo explores the broader social and political impact of prominent African Christian clergy who were sociopolitical activists such as Ndabaningi Sithole Abel Muzorewa and Canaan Banana It also highlights the role of missionaries who contributed to the African struggle for independence such as Ralph Edward Dodge Donal Lamont and Garfield Todd He examines the

contributions of African nationalist parties and prominent politicians with Christian roots such as Joshua Nkomo and Robert Mugabe in the struggle for independence and their contribution in the postcolonial era in light of their Christian heritage and the collective pre independence nationalist ideals on nation building and national unity *Aspects of Central African History* T. O. Ranger,1968

Legacies of Stone William Joseph Dewey,1997 Great Zimbabwe Shadreck Chirikure,2020-11-29 Conditioned by local ways of knowing and doing Great Zimbabwe develops a new interpretation of the famous World Heritage site of Great Zimbabwe It combines archaeological knowledge including recent material from the author s excavations with native concepts and philosophies Working from a large data set has made it possible for the first time to develop an archaeology of Great Zimbabwe that is informed by finds and observations from the entire site and wider landscape In so doing the book strongly contributes towards decolonising African and world archaeology Written in an accessible manner the book is aimed at undergraduate students graduate students and practicing archaeologists both in Africa and across the globe The book will also make contributions to the broader field such as African Studies African History and World Archaeology through its emphasis on developing synergies between local ways of knowing and the archaeology Great Zimbabwe Joseph O. Vogel,2019-08-22 First Published in 1994 This research guide was written as a comprehensive though by no means exhaustive survey of the literature pertinent to studying the indigenous complex societies of south central Africa Although the paramount focus of the compilation was the archaeology of Great Zimbabwe the author has drawn from a broad geographical area and a wider period of time than that usually associated with Zimbabwean culture in order to demonstrate the cultural background for the growth of monumental trading towns in south

central Africa **Africa from the Sixteenth to the Eighteenth Century** Bethwell A. Ogot, 1992 The result of years of work by scholars from all over the world The UNESCO General History of Africa reflects how the different peoples of Africa view their civilizations and shows the historical relationships between the various parts of the continent Historical connections with other continents demonstrate Africa's contribution to the development of human civilization Each volume is lavishly illustrated and contains a comprehensive bibliography This fifth volume of the acclaimed series covers the history of the continent from the beginning of the sixteenth century to the close of the eighteenth century in which two themes emerge first the continuing internal evolution of the states and cultures of Africa during this period second the increasing involvement of Africa in external trade with major but unforeseen consequences for the whole world In North Africa we see the Ottomans conquer Egypt South of the Sahara some of the larger older states collapse and new power bases emerge Traditional religions continue to coexist with both Christianity suffering setbacks and Islam in the ascendancy Along the coast particularly of West Africa Europeans establish a trading network which with the development of New World plantation agriculture becomes the focus of the international slave trade The immediate consequences of this trade for Africa are explored and it is argued that the long term global consequences include the foundation of the present world economy with all its built in inequalities **Colonialism to Cabinet Crisis** Andrew C. Ross, 2009 The late Andrew C Ross was a Scottish missionary in Malawi between 1958 and 1965 and one of the founding members of the Malawi Congress Party Like many other Scottish missionaries of the period he deeply opposed the Central African Federation and was a strong supporter of the emerging Malawian nationalist movement When following the declaration of a State of Emergency in March 1959 many of the political leaders of the Nyasaland African Congress were detained Andrew regularly visited those held at Kanjedza near Limbe visits which helped to deepen both his friendship with them and his commitment to their cause Thus when Orton Chirwa was released from detention later in 1959 and persuaded to become the temporary leader of the newly formed Malawi Congress Party Andrew Ross was one of the first to join becoming the proud holder of MCP card number six This book covers the period 1875 1965 and includes a Foreword by Professor George Shepperson
