Just Caring Leonard M. Fleck, 2009 What does it mean to be a just and caring society when we have only limited resources to meet unlimited health care needs Do we believe that all lives are of equal value Is human life priceless Should a just and caring society refuse to put limits on health care spending In *Just Caring* Leonard Fleck reflects on the central moral and political challenges of health reform today He cites the millions of Americans who go without health insurance thousands of whom die prematurely unable to afford the health care needed to save their lives Fleck considers these deaths as contrary to our deepest social values and makes a case for the necessity of health care rationing decisions The core argument of this book is that no one has a moral right to impose rationing decisions on others if they are unwilling to impose those same rationing decisions on themselves in the same medical circumstances Fleck argues we can make health care rationing fair in ways that are mutually respectful if we engage in honest rational democratic deliberation Such civic engagement is rare in our society but the alternative is endless destructive social controversy that is neither just nor caring
