Introductory accounting students consistently tell us When doing homework I get stuck trying to solve problems the way they

were demonstrated in class. Instructors consistently tell us, "I have so much to cover in so little time I can't afford to go backwards and review homework in class." Those challenges inspired us to develop Demo Docs. Demo Docs are comprehensive worked-through problems available for nearly every chapter of our introductory accounting text to help students when they are trying to solve exercises and problems on their own. The idea is help students duplicate the classroom experience outside of class. Entire problems that mirror end-of-chapter material are shown solved and annotated with explanations written in a conversational style, essentially imitating what an instructor might say if standing over a student's shoulder. All Demo Docs will be available in the study guide in print and on CD in Flash so students can easily refer to them when they need them. The Study Guide also includes a summary overview of key topics and multiple-choice and short-answer questions for students to test their knowledge. Free electronic working papers are included on the accompanying CD.
