Abstract: We have used a simple, yet effective, model to describe the growth of a polymer chain in a solution. The model is based on the assumption that the polymer chain is a random walk. The model is able to describe the growth of a polymer chain in a solution, and it is able to predict the growth of a polymer chain in a solution. The model is able to describe the growth of a polymer chain in a solution, and it is able to predict the growth of a polymer chain in a solution.
