demonstrates the continued importance of Tuhiwai Smith's work to today's struggles including the growing movement to decolonize education and the university curriculum. It also features contributions from both new and established indigenous scholars on what a decolonizing approach means for both the present and future of academic research and provides practical examples of how decolonial and indigenous methodologies have been fruitfully applied to recent research projects. Decolonizing Methodologies remains a definitive work in the ongoing struggle to reclaim indigenous ways of knowing and being.
