**Before Canada** Allan Greer, 2024-07-12 Long before Confederation created a nation-state in northern North America, Indigenous people were establishing vast networks and trade routes. Volcanic eruptions pushed the ancestors of the Dene to undertake a trek from the present-day Northwest Territories to Arizona. Inuit migrated across the Arctic from Siberia, reaching Southern Labrador where they met Basque fishers from northern Spain. As early as the fifteenth century, fishing ships from western Europe were coming to Newfoundland for cod, creating the greatest transatlantic maritime link in the early modern world. Later, fur traders would take capitalism across the continent, using cheap rum to lubricate their transactions. The contributors to *Before Canada* reveal the latest findings of archaeological and historical research on this fascinating period. Along the way, they reframe the story of the Canadian past, extending its limits across time and space and challenging us to reconsider our assumptions about this supposedly young country. Innovative and multidisciplinary, *Before Canada* inspires interest in the deep history of northern North America.

**Domestic Violence in International Context** Diana Scharff Peterson, Julie Schroeder, 2016-12-19 Domestic violence does not discriminate and is prevalent throughout the world regardless of race, age, or socio-economic status. Why then do reactions and responses differ so widely throughout the world? While some countries work diligently to address the matter through prevention and training, others take a hands-off approach in their response. This book is one of the first to investigate domestic violence on a global scale and provides best practices gleaned from various countries around the world to paint a detailed picture of how police response to domestic violence is currently being conducted and provide training bodies with up-to-date information to enhance current curricula. *Domestic Violence in International Context* brings together expert scholars native to twelve different countries to examine the history and scope of domestic violence and how it is being addressed, repressed, or ignored in their thirteen respective countries. Their specialised knowledge and unique data come together to create a series of snapshots that will guide nations, societies, and communities worldwide in formulating effective strategies to prevent, intervene, and combat this epidemic and examine partnerships and programmes already in place. This book is essential reading for practitioners, policy makers, and human rights organisations, as well as students and scholars of criminology, social work, sociology, and law.
