Rudolph, 2019-06-01 A former Wisconsin high school science teacher makes the case that how and why we teach science matters especially now that its legitimacy is under attack Why teach science The answer to that question will determine how it is taught Yet despite the enduring belief in this country that science should be taught there has been no enduring consensus about how or why This is especially true when it comes to teaching scientific process Nearly all of the basic knowledge we have about the world is rock solid The science we teach in high schools in particular laws of motion the structure of the atom cell division DNA replication the universal speed limit of light is accepted as the way nature works Everyone also agrees that students and the public more generally should understand the methods used to gain this knowledge But what exactly is the scientific method Ever since the late 1800s scientists and science educators have grappled with that question Through the years they've advanced an assortment of strategies ranging from the laboratory method to the five step method to science as inquiry to no method at all How We Teach Science reveals that each strategy was influenced by the intellectual cultural and political circumstances of the time In some eras learning about experimentation and scientific inquiry was seen to contribute to an individual's intellectual and moral improvement while in others it was viewed as a way to minimize public interference in institutional science John Rudolph shows that how we think about and teach science will either sustain or thwart future innovation and ultimately determine how science is perceived and received by the public Current Catalog National Library of Medicine (U.S.), 1980 First multi year cumulation covers six years 1965 70 *Index-catalogue of the Library ...* Library of the Surgeon-General's Office (U.S.), 1959 Index Catalog of the Library of the Surgeon General's Office National Library of Medicine (U.S.), 1959 *Index-catalogue of the Library of the Surgeon General's Office, National Library of Medicine* National Library of Medicine (U.S.), 1959 Collection of incunabula and early medical prints in the library of the Surgeon general's office U S Army Ser 3 v 10 p 1415 1436 **Index-catalogue of the Library of the Surgeon General's Office, National Library of Medicine: Authors and titles** National Library of Medicine (U.S.), 1959 Index-catalogue of the Library of the Surgeon General's Office, United States Army (Army Medical Library) National Library of Medicine (U.S.), 1959 *Index-catalogue of the Library of the Surgeon-General's Office, United States Army* National Library of Medicine (U.S.), 1961 The Listener, 1929 Garden Journal, 1967 **Catalog of Copyright Entries** Library of Congress.
