Democracy in the United States

Page 1

The United States is a representative democracy.

This means that our government is elected by citizens.

Here, citizens vote for their government officials.

These officials represent the citizens' ideas and concerns in government.

Voting is one way to participate in our democracy.

Citizens can also contact their officials when they want to support or change a law.

Voting in an election and contacting our elected officials are two ways that Americans can participate in their democracy.

The process required to become a citizen is called naturalization.

To become a U.S. citizen, you must meet legal requirements.

You must complete an interview with a USCIS officer.

You must also pass an English and Civics test.

Then, you take the Oath of Allegiance.

This means that you promise loyalty to the United States.

When you become a U.S. citizen, you also make these promises:

- ★ give up loyalty to other countries
- ★ defend the Constitution and laws of the United States
- ★ obey the laws of the United States
- ★ serve in the U.S. military (if needed)
- ★ do important work for the nation (if needed)

After you take the Oath of Allegiance, you are a U.S. citizen.

.....

Rights and Responsibilities of Citizens

Voting is one important right and responsibility of U.S. citizens.

Another right of all citizens is running for federal office.

Many naturalized citizens are elected to federal office.

However, to be president or vice president, you must be a natural-born United States citizen.

Learning to Love the Bomb Sean M. Maloney, 2007 In *Learning to Love the Bomb* Sean M Maloney explores the controversial subject of Canada's acquisition of nuclear weapons during the Cold War Based on newly declassified Canadian and U S documents it examines policy strategy operational and technical matters and weaves these seemingly disparate elements into a compelling story that finally unlocks several Cold War mysteries For example while U S military forces during the 1962 Cuban Missile Crisis were focused on the Caribbean Sea and the southeastern United States Canadian forces assumed responsibility for defending the northern United States with aircraft armed with nuclear depth charges flying patrols and guarding against missile attack by Soviet submarines This defensive strategy was a closely guarded secret because it conflicted with Canada's image as a peacekeeper and therefore a more passive member of NATO than its ally to the south It is revealed here for the first time The place of nuclear weapons in Canadian history has until now been a highly secret and misunderstood field subject to rumor rhetoric half truths and propaganda *Learning to Love the Bomb* reveals the truth about Canada's role as a nuclear power *World Studies* Heidi Hayes Jacobs, Michal L.
