Searcy Atkins,2025-02-11 I had a calling to write and just started writing I had some issues arising at my job and this book was therapeutic for me to write My purpose for writing this book was my way to prove to college students and parents that Religion is extremely important in Child Development and Education It is right up there with Safety and Nutrition Did you know that Religion faith Bible God is talked about in various child development text books I m only bringing out topics that is already in our curriculum I have found such an intolerance to anything Religious based amongst college students and often even the staff Adjunct college professors don t have academic freedom Academic Freedom is a professional right that protects teachers students and academic institutions from interference when pursuing knowledge It allows scholars researchers and educators to engage in teaching and scholarship without fear of censorship or retribution This includes the freedom to raise difficult subjects in a classroom discussion and publish a controversial research paper I could see how academic freedom can be taken to far with religion and politics That being said those that can t express their academic freedom will find legal means to do so Hence the book I m writing In this book I discuss all the ways religion is brought up in the text book how it relates to children bible scriptures that go along with the topic the history of Christianity in Colleges and validity of the Bible *Descriptive Catalogue of High School and College Textbooks* American Book Company,1902

Curious Folks Ask 2 Sherry Seethaler, 2010-11-22. Why do lizards do pushups? What will happen if the Earth's magnetic field reverses? How does water get from the roots to the tops of trees? Why and how do stars die? Is there really such a thing as the green flash? In *Curious Folks Ask 2*, 188 Answers about Our Fellow Creatures, Our Planet, and Beyond, gifted science explainer Sherry Seethaler presents 188 of the most fascinating new questions real people have asked about science, together with answers that are clear, accurate, honest, and a pleasure to read. Like her previous book *Curious Folks Ask the Q As*, in this book are collected from Seethaler's popular weekly column in the San Diego Union-Tribune. From the Earth's strangest lifeforms to the deepest reaches of the universe, Seethaler introduces exciting areas of research, cuts through myths, offers real insight into what science has learned, and reveals the continuing mysteries scientists are still working to understand. Written in Seethaler's trademark style, *Curious Folks Ask 2*, 188 Answers about Our Fellow Creatures, Our Planet, and Beyond, presents sophisticated science in a lighthearted, amusing way. Seethaler's answers will help rekindle the wonder of science in readers of all ages and backgrounds and help them intelligently interpret the latest news about science and medicine for years to come.
