## **Personal Narrative Guidelines:**

*Me-Search and Re-Search* DeMethra LaSha Bradley, Robert Nash, 2011-03-01 From the Foreword Robert and DeMethra's book *Me Searching and Re Search* has caught my fancy in a number of ways. The book title cleverly captures what SPN is all about: it is about self narratives the *me search* part and about scholarly meaning making the *re search* part. This eye catching title also illuminates the authors' intent to turn this seemingly intimidating method of self inquiry into something very accessible and doable. Their jargon free language is friendly and inviting. Although they don't intend to make their many methodological tips and tools too prescriptive, their practical suggestions provided in this guide book are indeed helpful and useful. I believe that Robert and DeMethra have demonstrated admirable talents as effective educators by unpacking the complex method of SPN writing into bite sized steps. I am fully convinced that the steps will help both novices and the experienced researcher to reach the ultimate height of producing engaging and scholarly significant SPN's. The book is also fun to read. The authors intersperse throughout their own SPN's pedagogical insights from their doing and teaching and real life stories in order to illustrate the methodological process challenges and triumphs.

*How To Tell Your Personal Story: The Essential Guide To Memorable Storytelling* Obehi Ewanfoh, Small businesses and content creators are you ready to take your storytelling skills to the next level? *How To Tell Your Personal Story* is the third book in The Storytelling Series for African Diaspora Beginners Guide for Small Businesses Content Creators. **A Clinician's Guide to Normal Cognitive Development in Childhood** Elisabeth Hollister Sandberg, Becky L.

Spritz, 2011-03-17 Clinicians and practitioners in training can often lose sight of the normal developmental landscape that underlies behavior especially in the field of cognitive development It exists in an insular bubble within the broader field of psychology and within each sub domain there is a wide continuum between the anchors of atypical and optimal development Clinicians need to learn and to be reminded of the unique peculiarities of developing cognitive skills in order to appreciate normal developmental phenomena In A Clinician's Guide to Normal Cognitive Development in Childhood every chapter provides students and established professionals with an accessible set of descriptions of normal childhood cognition accompanied by suggestions for how to think about normal development in a clinical context Each sub topic within cognitive

development is explicated through a succinct presentation of empirical data in that area followed by a discussion of the ethical implications. With an extensive review of data and clinical practice techniques, professionals and students alike will benefit enormously from this resource.

**The Blackwell Guide to Research Methods in Bilingualism and Multilingualism** Li Wei, Melissa G. Moyer, 2017-11-27 As globalization has increased awareness of the extent of language contact and linguistic diversity, questions concerning bilingualism and multilingualism have taken on an increasing importance from both practical and scholarly points of view. Written by leading experts and practitioners in the field, *The Blackwell Guide to Research Methods in Bilingualism and Multilingualism* highlights the interdisciplinary nature of research on bilingualism and multilingualism and offers a practical guide to the procedures and tools for collecting and analyzing data. Specifically, it addresses methodological issues, discusses research topics, core concepts and approaches, and the methods and techniques available. It links theory to method and to data and answers a real need for a know-how volume on bilingualism and multilingualism that deals with its methodology in a systematic and coherent way.

*Storying Mental Illness and Personal Recovery* Dorte Kirkegaard Thomsen, Tine Holm, Rikke Jensen, Majse Lind, Anne Mai Pedersen, 2023-02-09 An exploration of the interplay between mental illness and narrative identity, offering pathways to personal recovery.

*Qualitative Psychology: A Practical Guide to Research Methods* Jonathan A. Smith, 2024-02-22 Undertaking qualitative research in psychology can seem like a daunting and complex process, especially when it comes to selecting the most appropriate approach for your project. This book provides a comprehensive and practical introduction to the key approaches in qualitative psychology research from a world-leading group of academics and researchers. This Fourth Edition features timely updates that reflect the most current practice in the field. Jonathan A. Smith is Professor of Psychology at Birkbeck University of London.

A CLOSER LOOK OF

QUALITATIVE RESEARCH (A Handbook Guide for Novice Researcher) Dwi Poedjiastutie, 2021-11-04 Qualitative approaches are now growing its popularity among novice researchers. Thus they need to be well informed step by step in conducting the qualitative studies. Particularly this book will benefit students who keen to focus on finding solution on the language related issues and concerns. A number of features are provided for novice scholars and researchers in order to be able to select the appropriate design for their study. The first feature is detail characteristic information on each type of the research approach. Each approach is elaborated in detail manner so that readers will possess comprehensible input of what and when a particular approach will be appropriately selected and employed. The detail characteristics of each approach in qualitative have been discussed in many research methodology books published earlier. However this book can be used as the supplementary resources for those who specifically focus on the qualitative approach when they are dealing for the first time and more specifically for the language research and its related issues. The second feature is the example of each approach. Since qualitative approaches have a lot of similarities the researchers are supposed to have careful thought when selecting a particular approach. This can be very difficult for novice researchers. Therefore in order to guide them selecting the most appropriate approach for their study the examples of the previous research using similar approach are provided. The examples of the previous research on each particular approach are carefully chosen so that it possibly relates and represents Indonesian contexts. Another distinguished feature of this book is supplied the information on several common fallacies that scholars or novice researcher usually argue about the qualitative approach. For example many novice researchers in Indonesian context still believe that in qualitative approach they are not supposed to use numerical data. That might not be true. The discussion on some fallacies like the above mentioned example hopefully can guide them to have no more doubts of employing qualitative approach. *The Complete Guide to Personal Digital Archiving* Brianna H. Marshall, 2018-12-13

Scholars and scrapbookers alike need your help with saving their most important digital content.
