- Physical fitness is the capacity of the heart, lungs, and muscles to function at optimum efficiency (the human body to work at its best). It is important for health, physical performance, and mental well being. It does not mean that you are the best at a given sport or sport skill.

What does it mean to be physically fit?

- Children who are physically fit have sufficient endurance to participate in moderate to vigorous activities without undue fatigue.
- These children can participate longer and play harder than those less fit.
- Children who are physically fit develop a positive attitude toward an active and healthy lifestyle.
