**ICT in Education in Global Context** Ronghuai Huang, Kinshuk, Jon K. Price, 2015-11-05 This book aims to capture the current innovation and emerging trends of digital technologies for learning and education in K-12 sector through a number of invited chapters in key research areas Emerging Patterns of innovative instruction in different context Learning design for digital natives Digital learning resources for personalized learning in both formal and informal educational settings e leadership and teacher's digital capacity will be covered in the book This book intends to provide reference for the innovation in K-12 schools Researchers policy makers school administrators and also teachers could benefit from this book on researchers and methods for innovation in K-12 schools all over the world The 4 X 4 Block Schedule J. Allen Queen, Kimberly Gaskey Isenhour, 1998 This practical book shows you how to motivate and train teachers establish community support develop new classroom strategies and measure success of the 4 X 4 block schedule **JSL Vol 26-N6** JOURNAL OF SCHOOL LEADERSHIP, 2017-02-10 JSL invites the submission of manuscripts that contribute to the exchange of ideas and scholarship about schools and leadership All theoretical and methodological approaches are welcome We do not advocate or practice a bias toward any mode of inquiry e.g qualitative vs quantitative empirical vs conceptual discipline based vs interdisciplinary and instead operate from the assumption that all careful and methodologically sound research has the potential to contribute to our understanding of school leadership We strongly encourage authors to consider both the local and global implications of their work The journal's goal is to clearly communicate with a diverse audience including both school based and university based educators The journal embraces a broad conception of school leadership and welcomes manuscripts that reflect the diversity of ways in which this term is understood The journal is interested not only in manuscripts that focus on administrative leadership in schools and school districts but also in manuscripts that inquire about teacher student parent and community leadership **Teaching Constructivist Science, K-8** Michael L. Bentley, Edward S. Ebert, Christine Ebert, 2007 Invite young minds to engage in meaningful standards based science Good teachers know that science is more than just a collection of facts in a textbook and that teaching science goes beyond the mere transmission of information Actively engaging students in the learning process is critical to building their knowledge base assessing progress and meeting science standards Teaching Constructivist Science K-8 shows teachers how to transform students natural curiosity into dynamic learning opportunities By helping students construct new knowledge using the understandings they bring to the classroom teachers can make the most of instruction and new learning experiences With practical applications teaching strategies activities and assessment tools this reader friendly book demonstrates how to teach student ready standards based science Teachers will be able to use Classic and new activities to teach big ideas with basic materials An interview approach for uncovering student misunderstandings that block new learning A rich resource list for finding materials and organizations Guidelines for building a science friendly environment Sample lessons and learning experiences

aligned to national science standards Discussion questions for teacher study groups in each chapter For both experienced and novice teachers this accessible resource provides the perfect method to teach science in sound ways that make sense to students

**Achievement** Laura Mc Cullough, Michael D. Rettig, Karen Santos, 2013-09-27 This book showcases strategies which support teachers and principals as they implement high standards for students At the same time it demonstrates how to meet the needs of diverse learners      Leading Lesson Study Jennifer Stepanek, Gary Appel, Melinda Leong, Michelle Turner Mangan, Mark Mitchell, 2006-12-20 Provides readers with a compelling rationale for the process offers experience tested tools and suggests ways to address commonly occurring challenges This book will assist teachers and those who support them in understanding and implementing all phases of lesson study from initial planning through sharing with others what was learned Dennis Sparks Executive Director National Staff Development Council A powerful teacher professional development process that focuses collaborative teams directly on the classroom and the perfect tool for teachers professional developers and team leaders Gives you everything you need to use lesson study to support teachers in thinking deeply about practice Roberta Jaffe Science Education Coordinator New Teacher Center University of California Santa Cruz Use this team centered approach to directly enhance teaching and learning in your school First introduced in Japan lesson study has gained enthusiastic advocates in US educational circles as a powerful collaborative approach that brings teachers together as researchers into the science and craft of teaching and learning in their classrooms Teachers work as teams to develop a lesson plan teach and observe the lesson to collect data on student learning and use their observations to refine their lesson Participants build their sense of professional authority while discovering effective practices that result in improved learning outcomes for their students This how to guide provides teachers administrators and team leaders with practical strategies models and tools The book leads a beginning team through the phases of the lesson study cycle and provides an experienced team with new perspectives Using examples from U S classrooms this handbook Encourages educators to generate and share knowledge Inspires a teacher researcher stance Illustrates both the process and substance of lesson study Encourages collaboration Provides guidelines for avoiding common pitfalls Leading Lesson Study is an excellent resource for both experienced and novice lesson study teams administrators who want to start a lesson study program and lesson study team facilitators such as instructional coaches and professional development providers      *The Elementary Teacher's Guide to Conferences and Open Houses* Melissa Hughes, Kristin Oakes, Caroline Lenzo, Jackie Carpas, 2001-01-17 This resource includes valuable information to help teachers plan exciting informative and organized conferences and open houses From ideas for welcoming parents and students into your classroom meetings to reproducible evaluations invitations appointment reminders and more this resource provides all the information teachers need      **Bring History and Civics to Life** Karalee Wong Nakatsuka, Laurel Aguilar-Kirchhoff, 2022-09-13 This user friendly guide will empower and equip teachers to take a fun interactive approach to using technology to teach history and civics For years history and civics have been put on the back burner as schools focus on subjects like math science and English language arts Although all U S states have standards for the teaching of history there s a lack of consistency when it comes to teaching civics Today we see evidence of declining

levels of civic engagement which is sadly reinforced as our educational institutions fail to prioritize history and civics education while at the same time they often blame students for their lack of knowledge. Amid this backdrop, how can educators better prepare their students to become engaged, informed, and empathetic citizens? One way is by harnessing the power of digital learning to make history come alive for students, establishing a climate and culture that encourages students to be effective collaborators and lifelong learners who care about and contribute to society. With this book, two dynamic award-winning educators draw clear connections between history, civics, community, and technology in meaningful and actionable ways to deepen students' understanding of democratic processes and civic engagement. Using edtech and instructional design as entry points, the book highlights pedagogically sound practices to build critical thinking skills and offers classroom examples from a wide range of educators to show how to implement these strategies in the classroom. The book illustrates how to use educational technology as a means to inspire and enable students to become empathetic, informed citizens. Emphasizes historiography and critical thinking skills across the curriculum and broader community. Demonstrates how to integrate digital learning tools and strategies across history curriculum. Provides guidance on amplifying student voice and inspiring student civic engagement with students as knowledge constructors and global citizens. Prioritizes equity in learning by highlighting accessibility features of educational technology tools and implementation strategies to benefit all learners. In these pages, you will discover how to use educational technology to help students recognize themselves in history and experience the world and learn in ways that only technology allows. Audience: Grades 4-12 history, social science, and civics teachers.
