Sixty Years of Airfix Models Jeremy Brook, 2015-06-30 The best known and most important manufacturer of plastic model kits in the UK Airfix has been at the forefront of the industry since 1955 when the first Airfix aircraft kit appeared in UK branches of Woolworth's. The kits were made to a constant scale and covered a wide variety of subjects from aircraft to birds and from tanks to dinosaurs. In 1981 the famous London based company closed down and only the kits survived intact. For the next twenty five years Airfix was run by Palitoy and later Humbrol but suffered from a lack of investment. In 2006 Hornby Hobbies Ltd the train and Scalextric manufacturer bought the ailing company and transformed it. Money and resources were ploughed into the range and today Airfix releases around twenty new kits per year designed to an incredibly high standard. The old kits of the 1950s and 1960s are gradually being replaced by new state of the art tooling all bearing that most prestigious name Airfix. Published to coincide with the sixtieth anniversary of the first Airfix aircraft kit *Sixty Years of Airfix Models* tells the full story year by year of the company and its products. Illustrated throughout with colour photographs of kits, box art and completed models.

Churchill's Navy Brian Lavery, 2016-06-02 In this remarkable book now reissued in paperback Brian Lavery examines every aspect of the Royal Navy both ashore and at sea during the Second World War and casts a lucid eye over the strengths and weaknesses of an organisation that was put under acute strain during the period yet rose to the challenge with initiative and determination. Divided into twelve sections the book delves into the structure of naval power from the Board of Admiralty and shore commands to officers and crews, their recruitment and training, daily life and discipline. The roles of the Reserves, Merchant Navy, Royal Marines and Wrens within this structure are also explained. Developments in ship design and technology as well as advances in intelligence, sensors and armament are all discussed and set in context. The different divisions are dealt with one by one including the Submarine Service, Fleet Air Arm, Coastal Forces and Combined Operations. The text is complemented by over 300 illustrations and the personal accounts of those who served.
